- Value Partners China Greenchip Fund Limited (The "Fund") invests primarily in companies established in Greater China or which derive a majority of their revenue from business related to Greater China.
- The Fund invests in China, China-related companies and medium or small capitalization companies and is therefore subject to emerging market and concentration risks. The value of the Fund can be extremely volatile and could go down substantially within a short period of time. It is possible that the entire value of your investment could be lost.
- The Fund may also invest in derivatives which can involve material risks, e.g. counterparty default risk, insolvency or liquidity risk, and may expose the Fund to significant losses.
- In respect of the distribution shares for the Fund, the Manager currently intends to make quarterly dividend distribution. However, the distribution rate is not guaranteed. Distribution yield is not indicative of the return of the Fund. Distribution may be paid from capital of the Fund. Investors should note that where the payment of distributions are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount you originally invested or capital gains attributable to that and may result in an immediate decrease in the value of shares.
- You should not make investment decision on the basis of this material alone. Please read the explanatory memorandum for details and risk factors.

Investment objective

The Fund aims to achieve medium-term capital growth by means of investing in companies established in Greater China or which derive a majority of their revenue from business related to Greater China, whether in the form of direct investment in, or trade with, Greater China. This includes companies incorporated and/or listed outside Greater China.

[△] The Fund is one of the eligible collective investment schemes for the purpose of the New Capital Investment Entrant Scheme (New CIES) in Hong Kong with effect from 1 March 2024.

[△] Annualized return is calculated from inception based on published NAV.

[#] Refers to chain link return of Class N & Class A HKD, Class N since inception (7 Sep 2002) to 17 Dec 2020 and Class A since 18 Dec 2020. Class N was firstly launched in 2002 & closed for subscription from 26 Mar 2007. Class A was launched on 27 Mar 2007 with the same NAV of Class N. Therefore Classes A & N have the same NAV since 27 Mar 2007. Class N was fully redeemed on 17 Dec 2020 and NAV was no longer available. Hence Class A is now the representative share class after 17 Dec 2020. For Class A, return since launch i.e. 27 Mar 2007 return and annualized return are +66.8% and +3.1% respectively.

Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. 1. Hang Seng Index refers to Hang Seng Index (Price Return) up to 31 Dec 2004, thereafter it is the Hang Seng Index (Total Return). Hang Seng Index (Total Return) includes dividend reinvestment whereas Hang Seng Index (Price Return) does not take into account reinvestment of dividends. 2. MSCI China Index (Total Net Return) since fund inception to present which takes into account of dividend reinvestment after deduction of withholding tax. 3. Each hedged share class will hedge the Fund's base currency back to its currency of denomination on a best efforts basis. However, the volatility of the hedged classes measured in the Fund's base currency may be higher than that of the equivalent class denominated in the Fund's base currency. The hedged classes may be suitable for investors who wish to reduce the impact of changes in exchange rates between their local currency and the Fund's base currency. 4. As dividends may be paid out from capital, this may result in an immediate decrease in the NAV per share/unit and may reduce the capital available for the Fund for future investment and capital growth. Distributions are not guaranteed and may fluctuate. Past distributions are not necessarily indicative of future trends, which may be lower. Distribution payouts and its frequency are determined by the manager. The payment of distributions should not be confused with the Fund's performance, rate of return or yield. Positive distribution yield does not imply positive return. Annualized yield of QDis Class is calculated as follows: (Latest dividend amount/NAV as at ex-dividend date) x 4. Please refer to the offering document further details including the distribution policy. 5. Classification is based on Global Industry Classification Standard (GICS). 6. Volatility is a measure of the theoretical risk in terms of standard deviation, based on monthly return over the past 3 years. 7. Exposure refers to net exposure (long exposure minus short exposure). Derivatives e.g. index futures are calculated based on P/L instead of notional exposure. 8. Cash includes receivables and payables (except cash for collaterals and margins). 9. Investors should note that the base currency of the Fund is in HKD. Conversion to the base currency of the Fund will normally take place at the prevailing rate (as determined by the Fund's Trustee or Custodian) on the corresponding fund dealing day. Investors should be aware of possible risks resulting from fluctuations of exchange rates against USD/AUD/CAD/NZD. 10. Performance fee will only be charged if at the end of the financial year the NAV (before deduction of performance fee and relevant distributions) exceeds the "high watermark", which is the all-time year-end high of the Fund's NAV for the accumulation classes (and dividend adjusted equivalent for distribution paying classes). If in any one year, the Fund suffers a loss, no performance fee can be charged in subsequent years until the loss is recovered fully (the high-on-high principle). 11. The award reflects performance up to 30 Sep 2018. 12. The award reflects performance up to 31 Dec 2017. 13. For Hong Kong investors only.

Investors should note investment involves risk. The price of shares may go down as well as up and past performance is not indicative of future results.
