Value Partners Asian Income Fund

NAV per unit: Class A USD Acc - USD9.79 | Class A USD MDis - USD9.33

Fund size : USD78.7 million

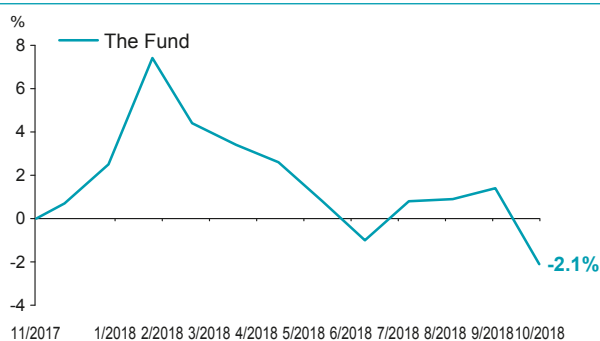

October 2018

- Value Partners Asian Income Fund (The "Fund") invests primarily in Asian equity and/or fixed income securities including convertible bonds and to deliver lower portfolio volatility.
- The Fund is subject to concentration risk as a result of the concentration of its investments in the Asian markets. The Fund may be more volatile than a broadly based fund as it is more susceptible to fluctuation in value resulting from adverse conditions in the Asian market.
- The Fund may invest in small and mid-capitalization companies. The stocks of such companies may have lower liquidity and their prices are more volatile to adverse economic developments than those of larger capitalization companies in general.
- The Fund may invest in debt securities including those that are below investment grade/unrated, and may involve greater risks, including credit risk, issuer-specific risk, counterparty risk and sovereign debt risk. The Fund may also invest in derivatives which can involve material risks, e.g. counterparty default risk, insolvency or liquidity risk. All these may expose the Fund to significant losses.
- Investment in fixed income securities may include contingent convertible bonds whose structure is innovative and untested. These instruments may be subject to conversion risk e.g. compulsory conversion by the issuer upon uncontrollable triggering events and hence the Fund may experience losses.
- In respect of the distribution units for the Fund, the Manager currently intends to make monthly dividend distribution. However, the distribution rate is not guaranteed. Distribution yield is not indicative of the return of the Fund. Distribution may be paid from capital of the Fund. Investors should note that where the payment of distributions are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount you originally invested or capital gains attributable to that and may result in an immediate decrease in the value of units.
- You should not make investment decision on the basis of this material alone. Please read the explanatory memorandum for details and risk factors.

Investment objective

The Fund aims to maximize return and income by investing in Asian equities, Asian fixed income securities and other assets relating to Asian companies that are listed in Asia, or have registered offices in Asia or generate a predominant share of their sales and/or their profits in Asia. The Fund also aims to achieve lower portfolio volatility by actively screening and selecting a combination of lower volatility equities and fixed income securities.

Source: HSBC Institutional Trust Services (Asia) Limited and Bloomberg, data as at the last valuation date of the month as stated above, unless stated otherwise. Performance is calculated on NAV to NAV in base currency with dividend reinvested and net of fees. All indices are for reference only.

1. Classification is based on Global Industry Classification Standard (GICS). 2. The manager intends to declare and pay monthly dividends equal to all or substantially all of the net income attributable to each of the Distribution Classes. However, there is neither a guarantee that such dividends will be made nor will there be a target level of dividend payout. No dividends will be paid with respect to the Accumulation Classes. Distribution may be paid from capital of the Fund. Investors should note that where the payment of distributions are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount that have been originally invested or capital gains attributable to that and may result in an immediate decrease in the value of units. Please refer to the Explanatory Memorandum for further details including the distribution policy. 3. Each hedged share class will hedge the Fund's base currency back to its currency of denomination on a best efforts basis. However, the volatility of the hedged classes measured in the Fund's base currency may be higher than that of the equivalent class denominated in the Fund's base currency. The AUD/CAD/EUR/NZD/RMB/SGD Hedged Classes are not recommended for investors whose base currency of investment is not in the aforesaid currencies. 4. Annualized yield of MDis Class is calculated as follows: (Latest dividend amount/NAV as at ex-dividend date) x 12. Investors should note that yield figures are estimated and for reference only and do not represent the performance of the Fund, and that there is no guarantee as to the actual frequency and/or amount of dividend payments. 5. Equities are classified by country of listing and fixed income securities are classified by country of risk. 6. Cash: 4.7%, refers to net cash on hand excluding cash for collaterals and margins. 7. Including bonds whose issuers do not seek credit ratings. 8. Portfolio yield is the weighted average of the total dividend yield of all securities in the portfolio. 9. The award recognized individuals who have led his/her team to outstanding performances over the consistency of three-year and five-year performances against the benchmark and their peers up to 30 Sep 2017. 10. The award was based on performance for the full 12-month period, from Sep 2016 to the end of Aug 2017. 11. Based on performance and achievements for 2016.
