

# Value Partners Fund Series

## Value Partners China A-Share Select Fund

NAV per unit: Class A RMB (CNH) – RMB16.81

Fund size : USD96.6 million (RMB607.9 million)

Morningstar Rating™<sup>1</sup>  
As at 31-01-2018

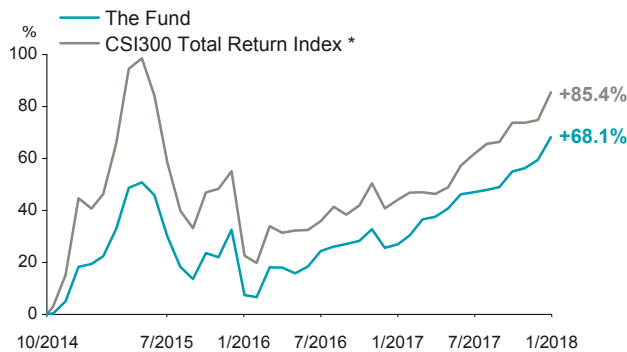

January 2018

- Value Partners China A-Share Select Fund (The "Fund") invests primarily in RMB-denominated equities in China.
- The Fund is also subject to concentration risk as a result of investing only in China. Adverse developments in such region may affect the value of the underlying securities in which the Fund invests. The value of the Fund can be extremely volatile and could go down substantially within a short period of time. It is possible that the entire value of your investment could be lost.
- The Fund intends to invest predominantly in China A Shares directly, via its Manager's RQFII quota. Investors will be subject to certain risks including repatriation risk, custodial risk, regulatory risk and risks associated with the Manager's RQFII status. In addition, the RQFII policy and rules are relatively new and there may be uncertainty in implementation and such policy and rules are subject to change. All these may adversely impact the Fund.
- The Fund and its primary investments are denominated in RMB. RMB is currently not a freely convertible currency and is subject to foreign exchange control policies, as well as repatriation restrictions imposed by the PRC government. Investors whose base currencies of investments are not in RMB should take into account the potential risk of loss arising from fluctuations in value between such currencies and the RMB.
- The Fund may invest in debt securities including those that are below investment grade/unrated, and may involve greater risks, including credit risk, issuer-specific risk, counterparty risk and sovereign debt risk. The Fund may also invest in derivatives which can involve material risks, e.g. counterparty default risk, insolvency or liquidity risk. All these may expose the Fund to significant losses.
- You should not make investment decision on the basis of this material alone. Please read the explanatory memorandum for details and risk factors.

### Investment objective

To achieve long-term capital growth and income appreciation by predominately investing in RMB-denominated equities in the PRC utilizing the Manager's RQFII quota.

Source: HSBC Institutional Trust Services (Asia) Limited and Bloomberg, data as at the last valuation date of the month as stated above, unless stated otherwise. Performance is calculated on NAV to NAV in base currency with dividend reinvested and net of fees. All indices are for reference only.

1. © 2018 Morningstar, Inc. All Rights Reserved. 2. Classification is based on Global Industry Classification Standard (GICS). 3. The profile is based on market consensus forecast as derived from S&P Capital IQ and Bloomberg. Harmonic mean methodology is applied to calculate the forecast P/E ratio and P/B ratio. Note that the manager's internal estimates may differ significantly from S&P Capital IQ and Bloomberg estimates. 4. Exposure refers to net exposure (long exposure minus short exposure). Due to rounding, percentages shown may not add up to 100%. 5. Cash refers to net cash on hand excluding cash for collaterals and margins. 6. Performance shown is calculated based on the Fund's since launch return. The Fund was launched on 29 Oct 2014. 7. The Fund may invest in financial derivative instruments ("FDI") for hedging purposes. In adverse situations, the Fund's use of FDI may become ineffective in hedging and the Fund may suffer significant losses. Each hedged share class will hedge the Fund's base currency back to its currency of denomination on a best efforts basis. However, the volatility of the hedged classes measured in the Fund's base currency may be higher than that of the equivalent class denominated in the Fund's base currency. Risks associated with FDI include counterparty risk, credit risk and liquidity risk. Such exposure may lead to a high risk of capital loss. The AUD/CAD/EUR/GBP/HKD/NZD/USD Hedged Classes are not recommended for investors whose base currency of investment is not in the aforesaid currencies. 8. Performance fee will only be charged if the NAV at the end of the financial year or upon realization of units exceeds the "high watermark", which is the all-time year-end high of the Fund's NAV. If in any one year, the Fund suffers a loss, no performance fee can be charged in subsequent years until the loss is recovered fully (the high-on-high principle). 9. The award recognized individuals who have led his/her team to outstanding performances over the consistency of three-year and five-year performances against the benchmark and their peers up to 30 Sep 2017. 10. The award was based on performance for the full 12-month period, from Sep 2016 to the end of Aug 2017. 11. Based on performance and achievements for 2016.

Investors should note investment involves risk. The price of units may go down as well as up and past performance is not indicative of future results. Investors should read the explanatory memorandum for details and risk factors in particular those associated with investment in emerging markets.
