January 2019

- Value Partners China A-Share Select Fund (The "Fund") invests primarily in RMB-denominated equities in China.
- The Fund is also subject to concentration risk as a result of investing only in China. Adverse developments in such region may affect the value of the underlying securities in which the Fund invests. The value of the Fund can be extremely volatile and could go down substantially within a short period of time. It is possible that the entire value of your investment could be lost.
- The Fund intends to invest predominantly in China A Shares directly, via its Manager's RQFII quota. Investors will be subject to certain risks including repatriation risk, custodial risk, regulatory risk and risks associated with the Manager's RQFII status. In addition, the RQFII policy and rules are relatively new and there may be uncertainty in implementation and such policy and rules are subject to change. All these may adversely impact the Fund.
- The Fund and its primary investments are denominated in RMB. RMB is currently not a freely convertible currency and is subject to foreign exchange control policies, as well as repatriation restrictions imposed by the PRC government. Investors whose base currencies of investments are not in RMB should take into account the potential risk of loss arising from fluctuations in value between such currencies and the RMB.
- The Fund may invest in debt securities including those that are below investment grade/unrated, and may involve greater risks, including credit risk, issuer-specific risk, counterparty risk and sovereign debt risk. The Fund may also invest in derivatives which can involve material risks, e.g. counterparty default risk, insolvency or liquidity risk. All these may expose the Fund to significant losses.
- You should not make investment decision on the basis of this material alone. Please read the explanatory memorandum for details and risk factors.

Investment objective

To achieve long-term capital growth and income appreciation by predominately investing in RMB-denominated equities in the PRC utilizing the Manager's RQFII quota.

1. © 2019 Morningstar, Inc. All Rights Reserved. 2. Classification is based on Global Industry Classification Standard (GICS). 3. The profile is based on market consensus forecast as derived from S&P Capital IQ and Bloomberg. Harmonic mean methodology is applied to calculate the forecast P/E ratio and P/B ratio. Note that the manager's internal estimates may differ significantly from S&P Capital IQ and Bloomberg estimates. 4. Exposure refers to net exposure (long exposure minus short exposure). Due to rounding, percentages shown may not add up to 100%. 5. Cash refers to net cash on hand excluding cash for collaterals and margins. 6. Performance shown is calculated based on the Fund's since launch return. The Fund was launched on 29 Oct 2014. 7. Each hedged share class will hedge the Fund's base currency back to its currency of denomination on a best efforts basis. However, the volatility of the hedged classes measured in the Fund's base currency may be higher than that of the equivalent class denominated in the Fund's base currency. The AUD/CAD/EUR/GBP/HKD/NZD/USD Hedged Classes are not recommended for investors whose base currency of investment is not in the aforesaid currencies. 8. Performance fee will only be charged if the NAV at the end of the financial year or upon realization of units exceeds the "high watermark", which is the all-time year-end high of the Fund's NAV. If in any one year, the Fund suffers a loss, no performance fee can be charged in subsequent years until the loss is recovered fully (the high-on-high principle). 9. The award reflects performance up to 30 September 2018. 10. The award reflects performance up to 31 December 2017. 11. The award recognises listed companies that were able to demonstrate outstanding business performance, create value for investors and showcase strong corporate governance over the past year. The award was bestowed on 5 November 2018.
