NAV per unit: Class A RMB (CNH) - RMB16.14 Fund size : USD43.9 million (RMB320.3 million)

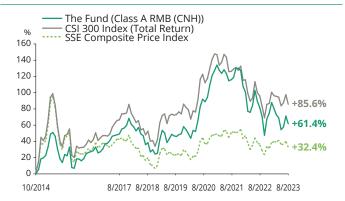

August 2023

- Value Partners China A-Share Select Fund (The "Fund") invests primarily in RMB-denominated equities in China.
- The Fund is also subject to concentration risk as a result of investing only in China. Adverse developments in such region may affect the value of the underlying securities in which the Fund invests. The value of the Fund can be extremely volatile and could go down substantially within a short period of time. It is possible that the entire value of your investment could be lost.
- The Fund intends to invest predominantly in China A-shares directly, via its Manager's RQFII quota. Investors will be subject to certain risks including repatriation risk, custodial risk, regulatory risk and risks associated with the Manager's RQFII status. In addition, the RQFII policy and rules are relatively new and there may be uncertainty in implementation and such policy and rules are subject to change. All these may adversely impact the Fund.
- The Fund and its primary investments are denominated in RMB. RMB is currently not a freely convertible currency and is subject to
  foreign exchange control policies, as well as repatriation restrictions imposed by the PRC government. Investors whose base currencies
  of investments are not in RMB should take into account the potential risk of loss arising from fluctuations in value between such
  currencies and the RMB.
- The Fund may invest in debt securities including those that are below investment grade/unrated, and may involve greater risks, including credit risk, issuer-specific risk, counterparty risk and sovereign debt risk. The Fund may also invest in derivatives which can involve material risks, e.g. counterparty default risk, insolvency or liquidity risk. All these may expose the Fund to significant losses.
- You should not make investment decision on the basis of this material alone. Please read the explanatory memorandum for details and risk factors
