February 2021

- Value Partners Health Care Fund (the "Fund") primarily invests in equities and equity-related securities in healthcare companies on a worldwide basis.
- The investments of the Fund are concentrated in the health care sector which are subject to greater influences from government policies and regulations than those of other industries. The value of the Fund may be more volatile than that of a fund having a more diverse portfolio of investments.
- Investing in PRC market exposes the Fund to additional risks including currency repatriation risk, uncertainty of taxation policies and risk associated with StockConnects. The Fund may also expose to RMB currency and conversion risk.
- Investing in small/mid-capitalization securities may have lower liquidity and their prices are more volatile to adverse economic developments.
- The Fund may also invest in derivatives and debt securities that are below investment grade or unrated which can involve material risks, e.g. counterparty default risk, insolvency or liquidity risk, and may expose the Fund to significant losses.
- You should not make investment decision on the basis of this marketing material alone. Please read the prospectus for details and risk factors.

Investment objective

The Fund aims to achieve long-term capital growth by investing primarily in equities and equity related securities in healthcare companies, such as pharmaceuticals, biotechnology, healthcare services and medical technology and supplies, on a worldwide basis.

Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. 1. Value Partners Health Care Fund is a sub-fund of Value Partners Ireland Fund ICAV (formerly Value Partners Ireland Fund plc), is an umbrella scheme with segregated liability between sub-funds authorised by the Central Bank of Ireland ("Central Bank") as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011. The ICAV is authorised and supervised by the Central Bank. Authorisation by the Central Bank shall not constitute a warranty as to the performance of the ICAV and the Central Bank shall not be liable for the performance or default of the ICAV. 2. Classification is based on Global Industry Classification Standard (GICS). 3. The profile is based on market consensus forecast as derived from FactSet and Bloomberg. Harmonic mean methodology is applied to calculate the forecast P/E ratio and P/B ratio. Portfolio yield is the weighted average of the total dividend yield of all securities in the portfolio. 4. Volatility is a measure of the theoretical risk in terms of standard deviation, based on monthly return over the past 3 years. 5. Exposure refers to net exposure (long exposure minus short exposure). Derivatives e.g. index futures are calculated based on P/L instead of notional exposure. 6. Cash includes receivables and payables (except cash for collaterals and margins). 7. Performance fee will only be charged if the NAV at the end of the financial year or upon realization of units exceeds the "high watermark", which is the all-time year-end high of the Fund's NAV. If in any one year, the Fund suffers a loss, no performance fee can be charged in subsequent years until the loss is recovered fully (the high-on-high principle).

Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.
