September 2018

- China Convergence Fund (The "Fund") primarily invests in A and B shares listed on the stock exchanges of Shanghai and Shenzhen as well as in H shares listed in Hong Kong.
- The Fund invests in China and therefore is subject to emerging market risks. Generally, investments in emerging markets are more volatile than investments in developed markets due to additional risks relating to political, social, economic and regulatory uncertainty.
- The Fund is also subject to concentration risk due to its concentration in China-related companies. Adverse development in such region may affect the value of the underlying securities in which the Fund invests.
- The Fund may directly invest in A Shares and other eligible securities through the qualified foreign institutional investors ("QFII") quota. Investors will be subject to certain risks including repatriation risk, custodial risk, regulatory risk. In addition, the QFII policy and rules are subject to change. All these may adversely impact the Fund.
- The Fund may also invest in derivatives which can involve material risks, e.g. counterparty default risk, insolvency or liquidity risk, and may expose the Fund to significant losses.
- You should not make investment decision on the basis of this material alone. Please read the explanatory memorandum for details and risk factors.

Investment objective

The Fund aims to achieve long-term capital appreciation by investing primarily in equity securities of China-related companies. This includes securities listed on a Mainland China stock exchange, the Hong Kong Stock Exchange and major stock exchanges in other jurisdictions. The investable universe covers, but is not limited to, A, B and H Shares as well as American Depositary Receipts.

Source: HSBC Institutional Trust Services (Asia) Limited and Bloomberg, data as at the last valuation date of the month as stated above, unless stated otherwise. Performance is calculated on NAV to NAV in base currency with dividend reinvested and net of fees. All indices are for reference only.

1. © 2018 Morningstar, Inc. All Rights Reserved. 2. MSCI China Index (Total Return) since fund inception to 31 Dec 2000, thereafter it is the MSCI China Index (Total Net Return) which takes into account of dividend reinvestment after deduction of withholding tax. MSCI index (Total Return) does not take into account of deduction of withholding tax. 3. Classification is based on Global Industry Classification Standard (GICS). 4. The profile is based on market consensus forecast as derived from S&P Capital IQ and Bloomberg. Harmonic mean methodology is applied to calculate the forecast P/E ratio and P/B ratio. Note that the manager's internal estimates may differ significantly from S&P Capital IQ and Bloomberg estimates. 5. Exposure refers to net exposure (long exposure minus short exposure). Due to rounding, percentages shown may not add up to 100%. 6. Cash refers to net cash on hand excluding cash for collaterals and margins. 7. Performance fee will only be charged if the NAV at the end of the financial year or upon realization of units exceeds the "high watermark", which is the all-time year-end high of the Fund's NAV. If in any one year, the Fund suffers a loss, no performance fee can be charged in subsequent years until the loss is recovered fully (the high-on-high principle). 8. Reflecting performance as at Sep 2015.

Investors should note investment involves risk. The price of units may go down as well as up and past performance is not indicative of future results.
