- Value Partners Asia ex-Japan Equity Fund (The "Fund") primarily invests in equity securities and equity-related securities of companies which have a significant portion of assets, investments, production activities, trading or other business interests in Asia region (excluding Japan) or which derive a significant part of their revenue from Asia (excluding Japan), and which are listed on stock markets on a worldwide basis. The Fund is actively managed and is not managed in reference to any benchmark index.
- Investment in Asian region may be subject to higher risk than developed markets and hence subject to certain risks such as political, tax, economic, foreign exchange, liquidity and regulatory risks.
- The Fund is also subject to concentration risk as it may focus in a particular sector/industry. The value of the Fund can be extremely volatile and could go down substantially within a short period of time. It is possible that the entire value of your investment could be lost.
- In respect of the distribution shares for the Fund, the Manager currently intends to make monthly dividend distribution. However, the distribution rate is not guaranteed. Distribution yield is not indicative of the return of the Fund. Distribution may be paid from capital of the Fund. Investors should note that where the payment of distributions are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount you originally invested or capital gains attributable to that and may result in an immediate decrease of the net asset value per share of the Fund.
- You should not make investment decision on the basis of this material alone. Please refer to the prospectus for details and risk factors, and where applicable, to the Key Information Document ("KID") or Key Investor Information Document ("KIID"), before making any final investment decisions.

Investment objective

The Fund aims to achieve long-term income and growth by investing primarily in equities and equity-related securities of companies based, or carrying out their business, in the Asia (ex-Japan) region.

^ Annualized return is calculated from inception based on published NAV.

Performance is calculated on NAV to NAV in base currency with dividend reinvested and net of fees. All indices are for reference only. Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall. The on-going charges are the fees the Fund charges to investors to cover the costs of running the Fund. Additional costs, including transaction fees, will also be incurred. These costs are paid out by the Fund, which will impact on the overall return of the Fund.

1. Value Partners Asia ex-Japan Equity Fund is a sub-fund of Value Partners Ireland Fund ICAV (formerly Value Partners Ireland Fund plc), is an umbrella scheme with segregated liability between sub-funds authorised by the Central Bank of Ireland as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011. The ICAV is authorised and supervised by the Central Bank. Authorisation by the Central Bank shall not constitute a warranty as to the performance of the ICAV and the Central Bank shall not be liable for the performance or default of the ICAV. 2. Classification is based on MSCI country. 3. Exposure refers to net exposure (long exposure minus short exposure). Derivatives e.g. index futures are calculated based on P/L instead of notional exposure. 4. Cash includes receivables and payables (except cash for collaterals and margins). 5. Classification is based on Global Industry Classification Standard (GICS). 6. Volatility is a measure of the theoretical risk in terms of standard deviation, based on monthly return over the past 3 years. 7. Each hedged share class will hedge the Fund's base currency back to its currency of denomination on a best efforts basis. However, the volatility of the hedged classes measured in the Fund's base currency may be higher than that of the equivalent class denominated in the Fund's base currency. The hedged classes may be suitable for investors who wish to reduce the impact of changes in exchange rates between their local currency and the Fund's base currency. 8. Class RDR Shares are only available for subscription to certain financial intermediaries or institutions for their investment services, which are exclusively remunerated by their clients, and either have separate fee based advisory arrangements with their clients or provide independent advice or discretionary portfolio management; or other investors or intermediaries at the Directors' or their delegates' discretion.
