

Value Partners Greater China High Yield Income Fund

NAV per unit: USD15.29 (P Acc USD) / USD8.56 (P MDis USD)

Fund size : USD5,507.7 million

July 2018

- Value Partners Greater China High Yield Income Fund (the "Fund") primarily invests in a portfolio of fixed and floating rate bonds and other debt securities, including convertible bonds, in the Greater China region.
- The Fund may invest in high yielding securities which may be unrated or below investment grade and debt securities issued by special purpose vehicles. The Fund is therefore exposed to higher credit/insolvency risk and default risk.
- The Fund primarily invests in the Greater China region and therefore is subject to emerging market and concentration risks. Generally, investments in emerging markets are more volatile than investments in developed markets due to additional risks relating to political, social, economic and regulatory uncertainty. Adverse development in such region may affect the value of the underlying securities in which the Fund invests.
- In respect of the distribution shares for the Fund, the Manager currently intends to make monthly dividend distribution. However, the distribution rate is not guaranteed. Distribution yield is not indicative of the return of the Fund. Distribution may be paid from capital of the Fund. Investors should note that where the payment of distributions are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount you originally invested or capital gains attributable to that and may result in an immediate decrease of the net asset value per share of the Fund.
- The Fund may also invest in derivatives which can involve material risks, e.g. counterparty default risk, insolvency or liquidity risk, and may expose the Fund to significant losses.
- You should not make investment decision on the basis of this marketing material alone. Please read the explanatory memorandum for details and risk factors.

Investment objective

To provide capital appreciation to investors through primarily investing in Greater China debt securities including but not limited to high yield, convertible, and mainland Chinese offshore bonds.

Commentary

Portfolio review:

Asian credit markets recovered strongly in July after the China Banking and Insurance Regulatory Commission (CBIRC) asked financial institutions to earnestly implement plans to lend to small- to micro-sized companies and lower their funding costs. During the month, a combination of outright buying and short covering pushed the market higher. High-yield issues, especially lower-rated ones, outperformed the rest of the market. We added risks in China as well as selectively bought a few high-yield names that were subject to forced selling earlier in the month.

Outlook:

Asian credit markets remain relatively cheap on a historical basis. The US-China trade dispute will likely take more time to unfold, but the current market seems to have priced in at least some of the worst possible outcomes. The overall yield of Asian high-yield bonds is still about 300bps higher than that of comparable US high yield – a level last seen in 2014-2015. Investors should look past the current turbulence and focus on the fundamentally sound global economy. A gradual normalization of global risk-free rates will be constructive to credit investments and other risk assets. We will continue to deploy our capital into opportunities that offer an attractive risk-reward tradeoff.

Source: HSBC Institutional Trust Services (Asia) Limited and Bloomberg, data as at the last valuation date of the month as stated above, unless stated otherwise. Performance is calculated on NAV to NAV in base currency with dividend reinvested and net of fees. All indices are for reference only.

1. The manager intends to declare and pay monthly dividends equal to all or substantially all of the net income attributable to each of the Distribution Classes. However, there is neither a guarantee that such dividends will be made nor will there be a target level of dividend payout. No dividends will be paid with respect to the Accumulation Classes. Distribution may be paid from capital of the Fund. Investors should note that where the payment of distributions are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount that have been originally invested or capital gains attributable to that and may result in an immediate decrease in the value of units. Please refer to the Explanatory Memorandum for further details including the distribution policy. 2. Each hedged share class will hedge the Fund's base currency back to its currency of denomination on a best efforts basis. However, the volatility of the hedged classes measured in the Fund's base currency may be higher than that of the equivalent class denominated in the Fund's base currency. The AUD/CAD/EUR/GBP/NZD/SGD Hedged Classes are not recommended for investors whose base currency of investment is not in the aforesaid currencies. 3. Annualized yield of MDis Class is calculated as follows: (Latest dividend amount/NAV as of ex-dividend date) x 12. Investors should note that yield figures are estimated and for reference only and do not represent the performance of the Fund, and that there is no guarantee as to the actual frequency and/or amount of dividend payments. 4. Classification is based on Global Industry Classification Standard (GICS). 5. Exposure refers to net exposure (long exposure minus short exposure). Due to rounding, percentages shown may not add up to 100%. 6. Cash refers to net cash on hand excluding cash for collaterals and margins. 7. Investors should note that Yield to worst is for reference only and does not represent the actual performance of the Fund or the dividend yield received by investors, nor does a positive yield imply a positive return. 8. Including bonds whose issuers do not seek credit ratings (Greater China Paper 14.1%, Equity-linked Investments 10.2%, Dim Sum Bonds 3.6%, Loan 3.5%, Mongolia Bonds 1.8%, Others 1.0%). 9. The average credit rating is calculated by assigning a sequential integer to all credit ratings from AAA (highest) to D (lowest), taking a simple, asset-weighted average of debt holdings by market value and rounding to the nearest rating. The letter rating may be based on bond ratings from different agencies and is provided to indicate the average credit rating of the portfolio's underlying bonds without taking into account derivative positions and unrated securities. As the risk of default increases disproportionately as a bond's rating decreases, the simple weighted average of credit ratings is not a statistical measurement of the portfolio's default risk. 10. Announced in Oct 2017 by The Asset Benchmark Research in the Asian G3 Bond Benchmark Review, which ranks the Top Investment Houses (Hedge Funds category) based on the number of votes won by their astute investors. All votes are subject to a weighting methodology. 11. The awards were judged based on performance over the past 12 months, up to 30 Apr 2017. 12. The period covered by the awards is from 1 Jan 2016 to 31 Dec 2016. 13. For Hong Kong investors only. The views expressed are the views of Value Partners Hong Kong Limited ("VPHK") only and are subject to change based on market and other conditions. The information provided does not constitute investment advice and it should not be relied on as such. All materials have been obtained from sources believed to be reliable, but their accuracy is not guaranteed. This material contains certain statements that may be deemed forward-looking statements. Please note that any such statements are not guarantees of any future performance and actual results or developments may differ materially from those projected. Investors should note investment involves risk and past performance is not indicative of future results. Investors should refer to the explanatory memorandum for details and risk factors in particular those associated with investment in Greater China markets, non-investment grade debt securities, and debt securities issued by special purpose vehicles. Investors should seek advice from a financial adviser before making any investment. In the event that you choose not to do so, you should consider whether the investment selected is suitable for you. For Singapore investors: The Fund is registered as a restricted foreign scheme in Singapore and will only be distributed to (i) institutional investors and (ii) accredited investors and certain other persons in Singapore in accordance with section 304 and 305 of the Securities and Futures Act. Value Partners Asset Management Singapore Pte Ltd, Singapore Company Registration No. 200808225G. This document has not been reviewed by the Securities and Futures Commission of Hong Kong.
