Fund size : USD3,375.4 million

Morningstar Rating™
As at 31-08-2017

31 August 2017

- Value Partners High-Dividend Stocks Fund (The "Fund") primarily invests in higher yielding debt and equity securities in the Asian region.
- The Fund may invest in higher-yielding debt and equity securities that are below investment grade. Such investments can involve greater risks due to the speculative nature.
- The Fund may invest in China and other markets of the Asian region, therefore is subject to emerging market risks. Generally, investments in emerging markets are more volatile than investments in developed markets due to additional risks relating to political, social, economic and regulatory uncertainty. The value of the Fund can be extremely volatile and could go down substantially within a short period of time. It is possible that the entire value of your investment could be lost.
- The Fund may also invest in derivatives which can involve material risks, e.g. counterparty default risk, insolvency or liquidity risk, and may expose the Fund to significant losses.
- In respect of the distribution units for the Fund, the Manager currently intends to make monthly dividend distribution. However, the distribution rate is not guaranteed. Distribution yield is not indicative of the return of the Fund. Distribution may be paid from capital of the Fund. Investors should note that where the payment of distributions are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount you originally invested or capital gains attributable to that and may result in an immediate decrease in the value of units.
- You should not make investment decision on the basis of this material alone. Please read the explanatory memorandum for details and risk factors.

Investment objective

The fund aims to provide capital appreciation to unitholders by investing primarily in a portfolio of relatively higher yielding debt and equity securities in Asian region.

Performance in USD, NAV to NAV, with dividend reinvested and net of all fees. 1. © 2017 Morningstar, Inc. All Rights Reserved (for Class A1). 2. The Manager currently intends to make monthly dividend distribution in respect of the A2 MDis Classes; actual dividend payout will be subject to the Manager's discretion. Distribution may be paid from capital of the fund. Investors should note that where the payment of distributions are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount that have been originally invested or capital gains attributable to that and may result in an immediate decrease in the value of units. For A1 Class units, Manager will review dividend distribution at its discretion once a year (last dividend payout date: 21 Nov 2005). Please refer to the explanatory memorandum for more details. 3. The fund may invest in financial derivative instruments ("FDI") for hedging purposes. In adverse situations, the fund's use of FDI may become ineffective in hedging and the fund may suffer significant losses. Each hedged share class will hedge the fund's base currency back to its currency of denomination on a best efforts basis. However, the volatility of the hedged classes measured in the fund's base currency may be higher than that of the equivalent class denominated in the fund's base currency. Risks associated with FDI include counterparty risk, credit risk and liquidity risk. Such exposure may lead to a high risk of capital loss. The AUD/CAD/GBP/NZD/RMB/SGD Hedged Classes are not recommended for investors whose base currency of investment is not in the aforesaid currencies. 4. The receiving bank may charge a fee for incoming payments. Such fees will reduce the actual amount of dividends received by the investor. 5. Annualized yield of Class A2 MDis is calculated as follows: (dividend amount/NAV as of ex-dividend date) x 12. Investors should note that yield figures are estimated and for reference only and do not represent the performance of the fund, and that there is no guarantee as to the actual frequency and/or amount of dividend payments. 6. Investors should note that the base currency of the fund is in USD. The HKD equivalent NAV per unit is for reference only and should not be used for subscription or redemption purpose. Conversion to the base currency of the fund will normally take place at the prevailing rate (as determined by the fund's Trustee or Custodian) on the corresponding fund dealing day. Investors should be aware of possible risks resulting from fluctuations of exchange rates against USD. 7. Classification is based on Global Industry Classification Standard (GICS). 8. The profile is based on market consensus forecast as derived from S&P Capital IQ and Bloomberg. Harmonic mean methodology is applied to calculate the forecast P/E ratio and P/B ratio. Note that the manager's internal estimates may differ significantly from S&P Capital IQ and Bloomberg estimates. Investors should note that all yield figures are for reference only and do not represent the actual performance of the fund or the dividend yield received by investors, nor does a positive yield imply a positive return. "Dividend yield" is calculated based on the equity portion of the fund, whereas "Yield to maturity/put" is calculated based on the debt portion of the fund by taking the average of yields of individual holdings (being the higher of the yield to maturity and yield to put of each bond/convertible bond) after excluding event-driven investment with extremely high yield. 9. Exposure refers to net exposure (long exposure minus short exposure). Due to rounding, percentages shown may not add up to 100%. 10. Cash refers to net cash including cash equivalents, investment in money market funds but excluding cash for collaterals and margins. 11. Performance fee will only be charged if the NAV at the end of the financial year or upon realization of units exceeds the "high watermark", which is the all-time year-end high of the fund's NAV. If in any one year, the fund suffers a loss, no performance fee can be charged in subsequent years until the loss is recovered fully (the high-on-high principle). 12. The award reflecting performance as at Dec 2016 and Dec 2015 respectively. 13. The award winners were selected among funds with "Accredited Investor" status in Singapore, based on performance data from 30 Jun 2012 to 30 Jun 2015 and voting from a panel of industry fund selectors.

For Singapore investors: The Fund is registered as a restricted foreign scheme in Singapore and will only be distributed to (i) institutional investors and (ii) accredited investors and certain other persons in Singapore in accordance with section 304 and 305 of the Securities and Futures Act.
