Fund size : USD1,944.8 million

Value Partners
Investing through discipline

★★★★
Morningstar Rating™
As at 28-02-2021

February 2021

- Value Partners High-Dividend Stocks Fund (The "Fund") primarily invests in higher yielding equity and debt securities in the Asian region.
- The Fund may invest in higher-yielding equity and debt securities that are below investment grade. Such investments can involve greater risks due to the speculative nature.
- The Fund may invest in China and other markets of the Asian region, therefore is subject to emerging market risks. Generally, investments in emerging markets are more volatile than investments in developed markets due to additional risks relating to political, social, economic and regulatory uncertainty. The value of the Fund can be extremely volatile and could go down substantially within a short period of time. It is possible that the entire value of your investment could be lost.
- The Fund may also invest in derivatives which can involve material risks, e.g. counterparty default risk, insolvency or liquidity risk, and may expose the Fund to significant losses.
- In respect of the distribution units for the Fund, the Manager currently intends to make monthly dividend distribution. However, the distribution rate is not guaranteed. Distribution yield is not indicative of the return of the Fund. Distribution may be paid from capital of the Fund. Investors should note that where the payment of distributions are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount you originally invested or capital gains attributable to that and may result in an immediate decrease in the value of units.
- You should not make investment decision on the basis of this material alone. Please read the explanatory memorandum for details and risk factors.

Investment objective

The Fund aims to provide capital appreciation to unitholders by investing primarily in a portfolio of relatively higher yielding equity and debt securities in Asian region.

Source: HSBC Institutional Trust Services (Asia) Limited and Bloomberg, data as at the last valuation date of the month as stated above, unless stated otherwise. Performance is calculated on NAV to NAV in base currency with dividend reinvested and net of fees. All indices are for reference only. Our portfolio disclosure policy can be obtained from the Investment Manager upon request to email fi@vp.com.hk.

* © Morningstar 2021. All Rights Reserved. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. 1. Each hedged share class will hedge the Fund's base currency back to its currency of denomination on a best efforts basis. However, the volatility of the hedged classes measured in the Fund's base currency may be higher than that of the equivalent class denominated in the Fund's base currency. The hedged classes may be suitable for investors who wish to reduce the impact of changes in exchange rates between their local currency and the Fund's base currency. 2. Investors should note that the base currency of the Fund is in USD. The HKD equivalent NAV per unit is for reference only and should not be used for subscription or redemption purpose. Conversion to the base currency of the Fund will normally take place at the prevailing rate (as determined by the Fund's Trustee or Custodian) on the corresponding fund dealing day. Investors should be aware of possible risks resulting from fluctuations of exchange rates against USD. 3. The Manager currently intends to make monthly dividend distribution in respect of the A2 MDIs Classes; actual dividend payout will be subject to the Manager's discretion. Distribution may be paid from capital of the Fund. Investors should note that where the payment of distributions are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount that have been originally invested or capital gains attributable to that and may result in an immediate decrease in the value of units. For A1 Class units, Manager will review dividend distribution at its discretion once a year (last dividend payout date: 21 Nov 2005). Please refer to the explanatory memorandum for more details. 4. The receiving bank may charge a fee for incoming payments. Such fees will reduce the actual amount of dividends received by the investor. 5. Annualized yield of MDIs Class is calculated as follows: (Latest dividend amount/NAV as at ex-dividend date) x 12. Investors should note that yield figures are estimated and for reference only and do not represent the performance of the Fund, and that there is no guarantee as to the actual frequency and/or amount of dividend payments. 6. Classification is based on Global Industry Classification Standard (GICS). 7. The profile is based on market consensus forecast as derived from FactSet and Bloomberg. Harmonic mean methodology is applied to calculate the forecast P/E ratio and P/B ratio. Portfolio yield is the weighted average of the total dividend yield of all securities in the portfolio. "Yield to maturity/put" is calculated based on the debt portion of the Fund by taking the average of yields of individual holdings (being the higher of the yield to maturity and yield to put of each bond/convertible bond) after excluding event-driven investment with extremely high yield. 8. Volatility is a measure of the theoretical risk in terms of standard deviation, based on monthly return over the past 3 years. 9. Exposure refers to net exposure (long exposure minus short exposure). Derivatives e.g. index futures are calculated based on P/L instead of notional exposure. 10. Performance fee will only be charged if at the end of the financial year the NAV (before deduction of performance fee and relevant distributions) exceeds the "high watermark", which is the all-time year-end high of the Fund's NAV for the accumulation classes (and dividend adjusted equivalent for distribution paying classes). If in any one year, the Fund suffers a loss, no performance fee can be charged in subsequent years until the loss is recovered fully (the high-on-high principle). 11. The award reflects performance up to 30 Sep 2018. 12. The award reflects performance up to 31 Dec 2017. 13. For Hong Kong investors only. Investors should note investment involves risk. The price of units may go down as well as up and past performance is not indicative of future results. Investors should read the explanatory memorandum for details and risk factors in particular those associated with investment in emerging markets. Information in this report has been obtained from sources believed to be reliable but Value Partners Hong Kong Limited does not guarantee the accuracy or completeness of the information provided by third parties. Investors should seek advice from a financial adviser before making any investment. In the event that you choose not to do so, you should consider whether the investment selected is suitable for you.

For Singapore investors: The Fund is registered as a restricted foreign scheme in Singapore and will only be distributed to (i) institutional investors and (ii) accredited investors and certain other persons in Singapore in accordance with section 304 and 305 of the Securities and Futures Act.
