

Value Partners Multi-Asset Fund

NAV per unit: Class A (USD): USD11.13

Fund size : USD60.6 million

31 October 2017

- Value Partners Multi-Asset Fund (The "Fund") aims to invest through an actively managed portfolio of collective investment schemes including unit trusts, mutual funds, unlisted index funds and exchange traded funds ("Underlying Schemes") in global markets which are primarily linked to the global trend of economies.
- Since the investment decisions of the Underlying Schemes are made at the level of such schemes, there can be no assurance that the selection of the managers of the Underlying Schemes will result in an effective diversification of investment styles. The Fund may also be adversely affected by suspension of redemption or calculation of net asset value or termination of the Underlying Schemes.
- The Fund may invest in Underlying Schemes which invest in emerging markets and will be subject to greater political, tax, economic, foreign exchange, liquidity and regulatory risks.
- The Fund may also invest in unlisted index funds and commodity-related investment schemes and will be subject to liquidity risk and commodity market risk.
- The Fund may also invest in unrated or below investment grade debt securities and other derivatives which can involve material risks, e.g. counterparty default risk, insolvency or liquidity risk, and may expose the Fund to significant losses.
- You should not make investment decision on the basis of this material alone. Please read the explanatory memorandum for details and risk factors.

Investment objective

The fund aims to invest through an actively managed portfolio of collective investment schemes managed by the Manager or its connected persons and/or its third parties in global markets which are primarily linked to the global trend of economies.
