January 2018

- Chinese Mainland Focus Fund (The "Fund") invests primarily in investments which are related to the Mainland of the People's Republic of China ("PRC") and investments whose value the Manager believes would be boosted by a Renminbi ("RMB") appreciation.
- The Fund invests in China-related companies which involve certain risks not typically associated with investment in more developed markets, such as greater political, tax, economic, foreign exchange, liquidity and regulatory risks.
- The Fund is also subject to concentration risk due to its concentration in China-related companies. Adverse development in such region may affect the value of the underlying securities in which the Fund invests.
- The Fund may directly invest in A Shares and other eligible securities through the Qualified Foreign Institutional Investors ("QFII") quota and the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect (collectively the "Stock Connects"). Investors will be subject to certain risks including repatriation, custodial, settlement and regulatory risk. In addition, the policy and rules of QFII and Stock Connects are subject to change. All these may adversely impact the Fund.
- Investments also invest in derivatives which can involve material risks, e.g. counterparty default risk, insolvency or liquidity risk, and may expose the Fund to significant losses.
- You should not make investment decision on the basis of this material alone. Please read the explanatory memorandum for details and risk factors.

### Investment objective

The Fund aims to achieve medium to long-term capital appreciation by investing primarily in investments which are related to the Mainland of the People's Republic of China ("PRC") and investments whose value the Manager believes would be boosted by a Renminbi ("RMB") appreciation. The Manager will also invest in investments whose value the Manager believes would increase even if the RMB exchange rate remains unchanged.

1. © 2018 Morningstar, Inc. All Rights Reserved. 2. Starting from Jul 2009, the MSCI China Index will be used as the reference index for the entire history of the Fund. Hang Seng H Shares Index, Shanghai Composite Index and Shenzhen Composite Index were no longer shown for comparison. The Index is for reference only. 3. The profile is based on market consensus forecast as derived from S&P Capital IQ and Bloomberg. Harmonic mean methodology is applied to calculate the forecast P/E ratio and P/B ratio. Note that the manager's internal estimates may differ significantly from S&P Capital IQ and Bloomberg estimates. 4. Classification is based on Global Industry Classification Standard (GICS). 5. Exposure refers to net exposure (long exposure minus short exposure). Due to rounding, percentages shown may not add up to 100%. 6. Cash refers to net cash on hand excluding cash for collaterals and margins. 7. Performance fee will only be charged if the NAV at the end of the financial year or upon realization of units exceeds the "high watermark", which is the all-time year-end high of the Fund's NAV. If in any one year, the Fund suffers a loss, no performance fee can be charged in subsequent years until the loss is recovered fully (the high-on-high principle). 8. The awards recognize the Greater China equity funds issued by CAMAHK members with at least 1 year of historical performance as of 30 Sep 2017. 9. Based on data as of year-end 2012.

Investors should note investment involves risk. The price of units may go down as well as up and past performance is not indicative of future results.
