March 2019

- Chinese Mainland Focus Fund (The "Fund") invests primarily in investments which are related to the Mainland of the People's Republic of China ("PRC") and investments whose value the Manager believes would be boosted by a Renminbi ("RMB") appreciation.
- The Fund invests in China-related companies which involve certain risks not typically associated with investment in more developed markets, such as greater political, tax, economic, foreign exchange, liquidity and regulatory risks.
- The Fund is also subject to concentration risk due to its concentration in China-related companies. Adverse development in such region may affect the value of the underlying securities in which the Fund invests.
- The Fund may directly invest in A Shares and other eligible securities through the Qualified Foreign Institutional Investors ("QFII") quota and the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect (collectively the "Stock Connects"). Investors will be subject to certain risks including repatriation, custodial, settlement and regulatory risk. In addition, the policy and rules of QFII and Stock Connects are subject to change. All these may adversely impact the Fund.
- Investments also invest in derivatives which can involve material risks, e.g. counterparty default risk, insolvency or liquidity risk, and may expose the Fund to significant losses.
- You should not make investment decision on the basis of this material alone. Please read the explanatory memorandum for details and risk factors.

Investment objective

The Fund aims to achieve medium to long-term capital appreciation by focusing on investments related to mainland China. This includes RMB-denominated corporate and government bonds, listed or unlisted shares issued by companies whose assets and/or revenues are principally denominated in RMB and/or whose costs or liabilities are principally denominated in US dollars. The investable universe can also cover A, B and H shares.

Source: HSBC Institutional Trust Services (Asia) Limited and Bloomberg, data as at the last valuation date of the month as stated above, unless stated otherwise. Performance is calculated on NAV to NAV in base currency with dividend reinvested and net of fees. All indices are for reference only.

1. © 2019 Morningstar, Inc. All Rights Reserved. 2. MSCI China Index (Total Net Return) which takes into account of dividend reinvestment after deduction of withholding tax. 3. The profile is based on market consensus forecast as derived from S&P Capital IQ and Bloomberg. Harmonic mean methodology is applied to calculate the forecast P/E ratio and P/B ratio. Note that the manager's internal estimates may differ significantly from S&P Capital IQ and Bloomberg estimates. 4. Classification is based on Global Industry Classification Standard (GICS). 5. Exposure refers to net exposure (long exposure minus short exposure). Due to rounding, percentages shown may not add up to 100%. 6. Cash refers to net cash on hand excluding cash for collaterals and margins. 7. Performance fee will only be charged if the NAV at the end of the financial year or upon realization of units exceeds the "high watermark", which is the all-time year-end high of the Fund's NAV. If in any one year, the Fund suffers a loss, no performance fee can be charged in subsequent years until the loss is recovered fully (the high-on-high principle). 8. The award reflects the fund's 10-year performance up to the end of 2017. 9. The award reflects performance up to 30 September 2018. 10. The award reflects performance up to 31 December 2017.
