Value Partners USD Money Market Fund

NAV per unit : Class A USD Acc - USD10.2396 | Class A HKD Acc - HKD10.2363

Fund size : USD88.8 million

CIES Eligible[△]

February 2024

- Value Partners USD Money Market Fund (The "Fund") primarily invests in USD-denominated and settled short-term deposits and high quality money market instruments issued by governments, quasi-governments, international organisations, corporates and financial institutions.
- The Fund is an investment product and is not equivalent to bank deposits. There is no guarantee in respect of repayment of principal.
- The Fund's investments are concentrated in USD-denominated and settled short-term deposits and high quality money market instruments. The Fund may be more susceptible to adverse economic, political, policy, foreign exchange, liquidity, tax, legal or regulatory events affecting the USD money markets. The Fund may also invest in emerging markets and is also subject to emerging market risk.
- The Fund is also subject to other risks associated with debt securities e.g. credit/counterparty, interest rate, credit rating and downgrading, credit rating agency and valuation risks.
- The Fund may invest in reverse repurchase transactions and repurchase transactions, both of which are subject to the risk of loss as difficulty in realizing collateral, or inaccurate pricing of the collateral or market movements resulting in proceeds from the sale of the collateral to be less than the cash placed with the counterparty.
- The Fund may use derivatives for hedging purposes. Use of derivatives may expose the Fund to significant losses.
- You should not make investment decision on the basis of this material alone. Please read the explanatory memorandum for details and risk factors.

Investment objective

The investment objective of the Fund is to invest in short-term deposits and high quality money market instruments. The Fund seeks to achieve a return in USD in line with prevailing money market rates.

Source: Value Partners, HSBC Institutional Trust Services (Asia) Limited, FactSet and Bloomberg, data as at the last valuation date of the month as stated above, unless stated otherwise. Performance is calculated on NAV to NAV in base currency with dividend reinvested and net of fees. Our portfolio disclosure policy can be obtained from the Investment Manager upon request to email ifs@vp.com.hk.

1. Classification is based on Bloomberg Classification System (BCLASS). 2. Volatility is a measure of the theoretical risk in terms of standard deviation, based on monthly return over the past 3 years. 3. The weighted modified duration represents the average modified duration of the portfolio of the underlying bonds weighted by reference to their market value. 4. Yield to Maturity is for reference only and does not represent the actual performance of the Fund. A positive yield does not imply a positive return. 5. Exposure refers to net exposure (long exposure minus short exposure). Derivatives e.g. index futures are calculated based on P/L instead of notional exposure. 6. Cash includes receivables and payables (except cash for collateral and margins). 7. Maturity breakdown reflects the final maturity date for the underlying securities in the portfolio (excluding cash). 8. Security credit rating is based on either (i) the highest credit rating assigned by one of the international credit rating agencies (S&P, Moody's or Fitch) or (ii) one of the credit rating agencies in the PRC. Issuer rating may be used for unrated securities. 9. The weighted average credit rating is derived by taking the weighted average of the credit rating for each underlying bond in the portfolio. Issuer rating may be used for unrated securities. The average credit rating is determined by assigning a sequential integer to all credit ratings from AAA (highest) to D (lowest), taking a simple, asset-weighted average of debt holdings by market value and rounding to the nearest rating. As the risk of default increases disproportionately as a bond's rating decreases, the simple weighted average of credit ratings is not a statistical measurement of the portfolio's default risk. 10. The assessment of each award category is based on 3 weighted criteria, and one weighted criterion based on feedback from private banking fund selectors. The weightings includes product performance (30%), asset gathering (20%), service competency/quality (20%) and fund selector feedback (30%). 11. Benchmark's top Mutual Funds are selected based purely on quantitative data in its BlueOnion fund database. The subset awards strategies who have demonstrated medium-to-long-term tangible outcomes without subjecting the investors to unnecessary risks. 12. The ranking for top investment houses in Asian G3 bonds is generated from the number of votes received from the top-rated analysts, economists, strategists, salespeople and traders, for investors in these institutions. The score is also subject to a weighting methodology determined by the rating of the individual casting the vote for the investor. A total of 430 different institutions were evaluated and shortlisted to produce the 2020 ranking. 13. The awards recognize the top performing Greater China Fixed Income funds issued by CAMAHK members with at least 1 year of historical performance as of 30 Sep 2020. The Best Total Return calculation methodology, Bloomberg calculates the customized 1 year, 3 years and 5 years total return using Bloomberg calcroute field "RT095-Custom Total Return Holding Period". 14. The award reflects performance up to 31 Dec 2019. 15. For Hong Kong investors only. Investors should note investment involves risk and past performance is not indicative of future results. Investors should read the explanatory memorandum for details and risk factors in particular those associated with investment in emerging markets. Investors should seek advice from a financial adviser before making any investment. In the event that you choose not to do so, you should consider whether the investment selected is suitable for you. For Singapore investors: The Fund is registered as a restricted foreign scheme in Singapore and will only be distributed to (i) institutional investors and (ii) accredited investors and certain other persons in Singapore in accordance with section 304 and 305 of the Securities and Futures Act. Value Partners Asset Management Singapore Pte Ltd, Singapore Company Registration No. 200808225G. This advertisement has not been reviewed by the Monetary Authority of Singapore.
