Management discussion and analysis

Global financial markets experienced a turbulent ride in the first half of 2019 primarily due to the U.S.-China trade overhang and sluggish global economic growth. However, notwithstanding the jump in market volatility since early May, the Group was able to continue its strategic development and to maintain a solid financial profile. We recorded a double-digit year-on-year increase in profit attributable to owners of the Company and ended the first half with a healthy growth in assets under management (“AUM”). We are pleased to report that we have made further progress on the mainland of China. Value Partners Classic Fund was approved as an eligible fund under the Mainland-Hong Kong Mutual Recognition of Fund (“MRF”) scheme, our first offering under the MRF scheme. The successful first closing of our private debt fund¹ in January 2019 was another major milestone for us.

Despite the choppy markets, our AUM registered good growth in the first half of 2019 as a result of both positive fund returns and net subscriptions. As at 30 June 2019, our AUM was US\$18.1 billion, a steady increase from US\$15.0 billion as at 31 December 2018 and US\$17.2 billion as at 30 June 2018. During the first half of 2019, we recorded net subscriptions of US\$1.8 billion, compared to the US\$1.2 billion net inflows for full-year 2018. The resilient performance was supported by both market recovery in the first quarter of 2019 and investors’ continuing demands for our fixed income funds, especially the Greater China High Yield Income Fund, which generated stable income amid heightened geopolitical uncertainties and a prolonged low interest rate era. Our fast-expanding mainland China business also contributed to the net inflows.

Meanwhile, a dip in performance fees in the year to June sent our operating profit lower to HK\$162.0 million. With stringent cost control and mark-to-market gains booked by the Group’s investments in its own funds, we delivered a 29.1% rise in profit attributable to owners of the Company in the first half of 2019.

For details of the Group’s financial performance, please refer to the Financial Review section.

Mainland China related business

Despite China is facing macro headwinds, including its ongoing trade disputes with the U.S., we still see mainland China offering historical opportunities to asset managers like us as the Chinese market continues with its rapid accumulation of household assets and financial market reforms.

The opening-up of financial market by mainland China has been endorsed by global major index providers with the inclusion and weighting increase of mainland China in the respective indices since the beginning of the year. We see these positive factors as golden opportunities to further expand our business on the mainland of China as foreign investors are expected to gradually allocating their investments in the Chinese market in the coming years.

This year not only signifies a new chapter of China’s capital market, but it also has been a decade since we established our first Shanghai office in 2009.

During the past decade, we have identified and participated in many opportunities in China, making them a crucial part of our success story. The positive momentum continued well into the first half of 2019, with our AUM on the mainland of China and related business increasing by more than 35% to finish at US\$1.5 billion.

As a pioneer investor in the Greater China markets since 1993, we are delighted to see our capability and expertise being recognized as the best-in-class among global peers. We are pleased to highlight that Value Partners was ranked as a Top 10 Wholly Foreign Owned Enterprise (“WFOE”) operating on the mainland of China by Z-Ben Advisors. In addition, our mainland China business was also awarded as one of the “Most Promising WFOE Private Fund Houses” at the 10th Golden Sunshine Award by *Shanghai Securities News* and the “China – Best WFOE House” by *Asia Asset Management*.

Furthermore, we achieved another milestone in March 2019. With the launch of our flagship Classic Fund on the mainland of China under the MRF program, we are able to meet Chinese investors’ growing demand for overseas investments. Tianhong Asset Management is the master agent of the fund on the mainland of China. Two more China onshore funds from us had completed the registration with the Asset Management Association of China under the private fund management (“PFM”) license during the first half of 2019, making us managing a total of six PFM funds on the mainland.

As mainland China quickens the pace of financial reforms, we will continue to seize every opportunity to further develop our mainland China business and expand our services.

Business and product expansions

Geographically, we have expanded our presence farther afield with the opening of our U.S. office in Boston at the beginning of the year. With this latest overseas office, our global footprints have extended beyond Hong Kong and the mainland of China to the U.S., the U.K., Singapore and Malaysia. We have seen encouraging inflows and business opportunities across all our overseas offices since the beginning of the year.

In Europe, we recently completed the restructuring of our UCITS fund platform and are now planning to register selected UCITS funds for sales in Hong Kong and other parts of Asia.

In Taiwan, we have received good inflows from institutional investors into our fixed income and equities products. To further broaden our distribution, we recently appointed a local master agent to help introduce our flagship funds to local investors.

Southeast Asia, an important component of China’s Belt and Road initiative, is another business focus for us in 2019. For the past year, we have been proactively preparing for business expansion in Malaysia, where we will be launching new innovative products, including Shariah-compliant funds and Southeast Asia-focused smart ETFs. We have also gained good traction with our private banking partners in Singapore.

On the alternatives space, we have made significant strides in expanding our product suite. We completed successfully the first closing of our Asia Pacific-focused private debt fund¹ in January 2019 and aim to complete our inaugural onshore private equity fund¹ on the mainland of China focusing on the higher education sector in the near future.

Finally, we have further broadened our multi-asset solution by launching the Asian Innovation Opportunities Fund² in February this year. It is a public fund authorized in Hong Kong that targets to invest in Asian companies benefiting from business and product innovation.

Management discussion and analysis

Senior executive appointments and other matters

As part of the Group's ongoing succession planning initiatives and to ensure the continuity of strong business stewardship, we previously announced in March 2019 the re-designation of Dato' Seri Cheah Cheng Hye and the appointment of Mr. Louis So Chun Ki as Co-Chairmen of the Board. As a co-founder and a Co-Chairman, Dato' Seri Cheah has been playing an active role in steering the Group's overall business and investment strategies. He is also responsible for appointments of key staffs and the overall positioning of the Group as a financial services platform.

Mr. So has been with the Group since he graduated from university in 1999. He has 20 years of experience in the financial services industry, and has been playing an important role in managing our investment research and portfolio management functions jointly with Dato' Seri Cheah over the years. Mr. So works closely with Dato' Seri Cheah on all aspects of providing leadership to Value Partners.

We also announced in July 2019 that Mr. Norman Ho Man Kei, our Senior Investment Director, has re-joined our Board as an Executive Director and we are delighted to welcome him to the Board. Mr. Ho is the second-longest-serving staff member of Value Partners after Dato' Seri Cheah. He has been with the Group for almost 25 years and has extensive experience in the financial services industry. He is in a strong position to provide guidance on matters of strategy and operations to the Group.

On 26 July 2019, Dr. Au King Lun had retired from the Board and as a Chief Executive Officer ("CEO"). He has expressed his desire to step down from the role as an Executive Director of the Board, and has taken up a new role as a President of the Group. Dr. Au oversees the Group's corporate affairs, and he remains as the Chairman of the Group's Risk Management Committee. The CEO function is now taken up by the Leadership Committee of the Group, currently comprising Dato' Seri Cheah, Mr. So and Dr. Au. Our Leadership Committee is supported by a distinctive senior management team with strong vision and expertise.

Appreciation

Looking forward, headwinds from trade tensions and geopolitics will continue to put pressure on financial markets in the foreseeable future. In light of this, we will continue to strengthen our fund management capability and develop investment solutions to help investors navigate the challenging market environment.

Last but not least, we would like to thank all of our shareholders, clients and business partners for their continued support despite heightened economic uncertainty. We would also like to recognize our colleagues' dedication, commitment and contributions towards the success of Value Partners.

Assets Under Management

AUM and return

The Group's AUM stood at US\$18,052 million at the end of June 2019 (31 December 2018: US\$15,025 million). The growth was mainly bolstered by positive fund returns of US\$1,584 million and net subscriptions of US\$1,756 million in the first half of 2019.

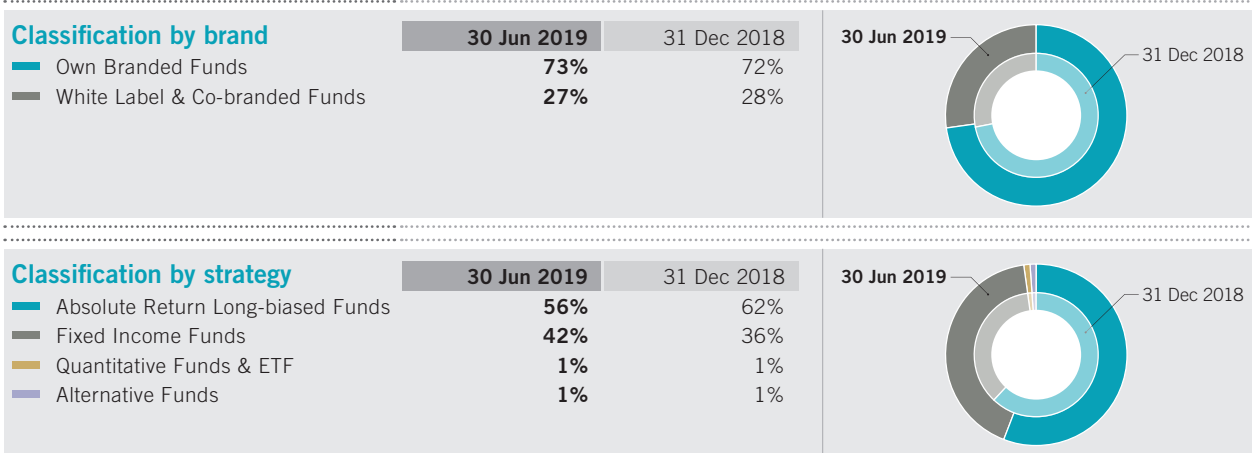

Overall fund performance¹, calculated as the asset-weighted average return of funds under management, was a gain of 10.5% in the period under review. Among our funds, the Value Partners Greater China High Yield Income Fund², the Group's largest public fund³ in Hong Kong, generated a solid return of 8.3% during the period. The Value Partners Classic Fund⁴, our flagship product, rose 18.3% during the period, while the Value Partners High-Dividend Stocks Fund⁵ gained 10.8% during the period.

Benefiting from the market recovery, we recorded a net inflow of US\$1,756 million in the first half of 2019, which swung from a net outflow of US\$408 million in the second half of 2018. The net inflows in the first half of 2019 was accounted for by gross subscriptions of US\$4,733 million (2H 2018: US\$2,269 million; 1H 2018: US\$5,839 million) and gross redemptions of US\$2,977 million (2H 2018: US\$2,677 million; 1H 2018: US\$4,259 million).

AUM by category

The charts below show breakdowns of the Group’s AUM as at 30 June 2019 using two different classifiers: brand and strategy. Own Branded Funds (73%) remained the biggest contributor to the Group’s AUM. By strategy, Absolute Return Long-biased Funds (56%) continued to represent the largest share of the Group’s AUM, followed by Fixed Income Funds (42%), where the majority of AUM was contributed by the Value Partners Greater China High Yield Income Fund. The share of Group AUM accounted for by the Value Partners Greater China High Yield Income Fund increased steadily during the period.

Client base

During the period, institutional clients – including institutions, pension funds, high-net-worth individuals (“HNWIs”), endowments and foundations, funds of funds, and family offices and trusts – remained the Group’s primary set of fund investors, accounting for 63% of total AUM (31 December 2018: 63%). Meanwhile, retail clients contributed 37% of total AUM (31 December 2018: 37%). In terms of geographic location, Hong Kong clients continued to be the largest segment, contributing 77% of the Group’s AUM (31 December 2018: 78%). There was a notable rise in the share of AUM attributable to clients from mainland China, which increased to 8% (31 December 2018: 7%) as the Group’s China and related business saw solid growth in the first half of 2019. The share of AUM contributed by clients in Singapore remained at 7% (31 December 2018: 7%), while clients from the United States and Europe took up a combined 5% (31 December 2018: 5%).

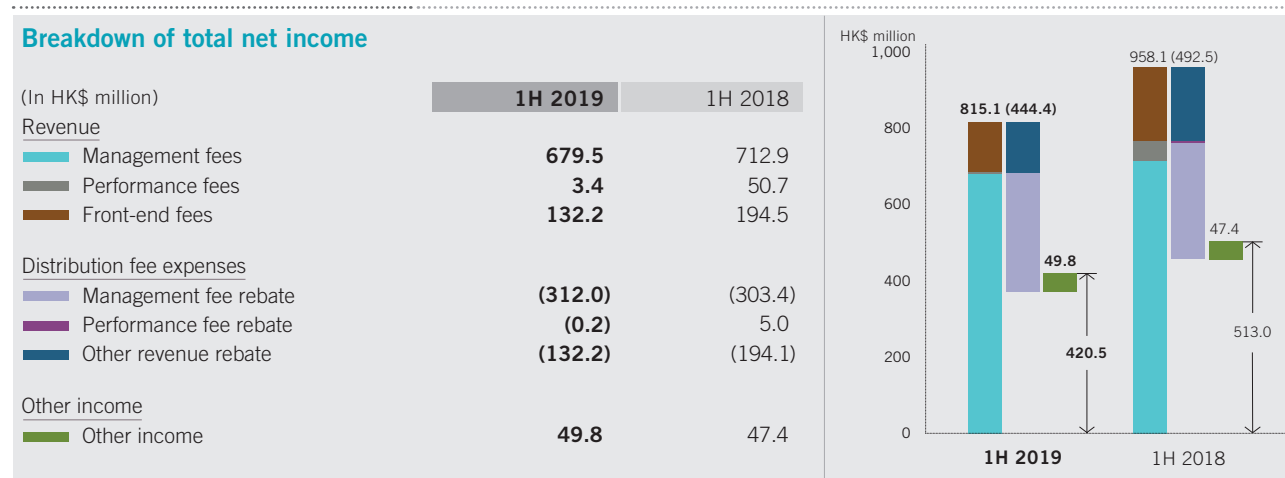

Summary of results

Key financial highlights for the reporting period are as follows:

(In HK\$ million)	1H 2019	1H 2018	% Change
Total revenue	815.1	958.1	-14.9%
Gross management fees	679.5	712.9	-4.7%
Gross performance fees	3.4	50.7	-93.3%
Operating profit (before other gains/losses)	162.0	246.1	-34.2%
Profit attributable to owners of the Company	250.9	194.3	+29.1%
Basic earnings per share (HK cents)	13.5	10.5	+28.6%
Diluted earnings per share (HK cents)	13.5	10.5	+28.6%
Interim dividend per share	Nil	Nil	

Revenue and fee margin

The Group's profit attributable to owners of the Company increased to HK\$250.9 million for the six months ended 30 June 2019 (1H 2018: HK\$194.3 million). Gross management fees, the Group's largest revenue contributor, dropped 4.7% to HK\$679.5 million (1H 2018: HK\$712.9 million) on a 3.9% decrease in the Group's average AUM to US\$17,048 million (1H 2018: US\$17,737 million).

During the period, our annualized gross management fee margin remained stable at 103 basis points (1H 2018: 104 basis points). Our annualized net management fee margin was narrowed down to 57 basis points (1H 2018: 60 basis points) as management fee rebates for distribution channels increased to HK\$312.0 million (1H 2018: HK\$303.4 million).

Financial review

Gross performance fees, another source of revenue, decreased to HK\$3.4 million (1H 2018: HK\$50.7 million), as most of the Group's funds that attract performance fees finished the period below their high watermarks. Performance fees are generated when eligible funds, at their performance fee crystallization dates, report returns exceeding their high watermarks for the respective period up to the crystallization date. As the dates of performance fee crystallization for most of our major own branded funds are at the end of the year, fund performance in the second half of the year will determine our ability to collect more performance fee in 2019.

Other revenue mainly included front-end load, of which a substantial amount was rebated to distribution channels (a usual practice in the market).

Other income, which mainly comprised of interest income, dividend income and rental and other income from an investment property, totaled HK\$49.8 million (1H 2018: HK\$47.4 million). The change was mainly due to a rise in the rental and other income of an investment property to HK\$7.5 million (1H 2018: Nil), net with the drop in interest income to HK\$32.2 million (1H 2018: HK\$33.4 million) and dividend income to HK\$7.8 million (1H 2018: HK\$13.9 million).

Other gains and losses

(In HK\$ million)	1H 2019	1H 2018
Net gains/(losses) on investments	101.5	(66.6)
Fair value gain on an investment property	6.3	–
Gains on disposal of property, plant and equipment	0.5	–
Net foreign exchange (losses)/gains	(0.9)	11.2
Other gains/(losses) – net	107.4	(55.4)

Other gains or losses mainly included fair value changes and realized gains or losses on seed capital investments, investments in our own funds and other investments, as well as net foreign exchange gains or losses. Seed capital investments are made by the Group to provide capital that was considered necessary to new funds during the initial phase of fund launches. The Group also invests in its own funds alongside investors, where appropriate, for better alignment of interests and investment returns. Other gains on a net basis totaled HK\$107.4 million in the period, swinging from losses of HK\$55.4 million in the first half of 2018 as some of our seed capital investments booked mark-to-market gains as a result of the improved market sentiment.

Investments in joint ventures

Investments in joint ventures represent the Group's 50% equity interest in Value Investing Group Company Limited and its 50% equity interest in Clear Miles Hong Kong Limited. Value Investing Group Company Limited has trust beneficiary interests in three Japanese logistics centers, while Clear Miles Hong Kong Limited has 100% indirect interest in an Australian industrial property. The Group's share of gains amounted to HK\$11.4 million (1H 2018: HK\$50.0 million), which consisted of revaluation gains on properties that totaled HK\$2.2 million (1H 2018: HK\$31.3 million) and rental income of HK\$9.2 million (1H 2018: HK\$14.4 million).

Cost management

Breakdown of total expenses

(In HK\$ million)	1H 2019	1H 2018
Compensation and benefit expenses		
Fixed salaries and staff benefits	117.2	112.4
Management bonus	51.6	72.8
Staff rebates	1.6	2.4
Share-based compensation expenses	17.5	11.2
Other expenses		
Other fixed operating costs	52.6	49.5
Sales and marketing	7.0	10.8
Depreciation excluding depreciation of right-of-use assets-properties	7.3	6.2
Non-recurring expenses	3.7	1.7

In terms of cost management, the Group continued to exercise stringent cost discipline and kept fixed operating expenses well covered by net management fee income, which is a relatively stable source of income. Such coverage is measured by the “fixed cost coverage ratio”, an indicator showing the number of times that fixed operating expenses (excluding discretionary and non-recurring expenses) are covered by net management fee income. The Group aims to maintain a fixed cost coverage ratio of around 2 times. For the current period, the Group reported a fixed cost coverage ratio of 2.2 times (1H 2018: 2.6 times).

Compensation and benefit expenses

During the period, fixed salaries and staff benefits rose by HK\$4.8 million to HK\$117.2 million (1H 2018: HK\$112.4 million). The increase was mainly attributable to salary increments.

As part of its compensation policy, the Group distributes 20% to 23% of its annual net profit pool as a management bonus to employees. The management bonus for the first half of 2019 totaled HK\$51.6 million (1H 2018: HK\$72.8 million). The profit pool is calculated by deducting certain adjustments from net profit before the management bonus and taxation. This discretionary bonus is maintained to promote staff loyalty and performance while aligning employee and shareholder interests.

The staff of Value Partners is entitled to partial rebates of management fees and performance fees when investing in funds managed by the Group. Staff rebates for the year amounted to HK\$1.6 million (1H 2018: HK\$2.4 million).

During the period, the Group recorded expenses of HK\$17.5 million (1H 2018: HK\$11.2 million), which were related to stock options granted to employees. This expense item had no impact on cash flows and was recognized in accordance with Hong Kong Financial Reporting Standards.

Other expenses

Other non-staff operating costs – such as rent, legal and professional fees, investment research fees, and other administrative and office expenses – amounted to HK\$52.6 million for the period (1H 2018: HK\$49.5 million), while sales and marketing expenses decreased to HK\$7.0 million (1H 2018: HK\$10.8 million).

Dividends

The Group has been adopting a consistent dividend distribution policy that takes into account the relatively volatile nature of asset management income streams. This policy states that dividends (if any) will be declared annually at the end of each financial year to better align dividend payments with the Group's full-year performance. Dividend per share is declared based on the Group's realized profit, which excludes unrealized gains and losses recognized.

Liquidity and financial resources

Fee income is the Group's main source of income, while other income sources include interest income generated from bank deposits and dividend income from investments held. At the end of the first half of 2019, the Group's balance sheet and cash flow positions remained strong, with a net cash balance of HK\$2,116.8 million. Net cash inflows from operating activities amounted to HK\$143.5 million, while the Group had no corporate bank borrowings and did not pledge any assets as collateral for overdrafts or other loan facilities. The Group's debt-to-equity ratio, measured by interest bearing external borrowings (excluding borrowings by investment funds where the Group has a controlling interest) divided by shareholders' equity, was zero, while its current ratio (current assets divided by current liabilities) was 7.2 times.

Capital structure

As at 30 June 2019, the Group's shareholders' equity and total number of shares issued were HK\$4,133.3 million and 1.86 billion, respectively.

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF VALUE PARTNERS GROUP LIMITED

(Incorporated in the Cayman Islands with limited liability)

Introduction

We have reviewed the interim financial information set out on pages 14 to 41, which comprises the condensed consolidated balance sheet of Value Partners Group Limited (the “Company”) and its subsidiaries (together, the “Group”) as at 30 June 2019 and the condensed consolidated statement of comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants. The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”. Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information of the Group is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”.

Notes to the Condensed Consolidated Interim Financial Information

For the six months ended 30 June 2019

1 General information

Value Partners Group Limited (the “Company”) was incorporated in the Cayman Islands on 10 November 2006 as an exempted company with limited liability under the Companies Law, Cap 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The address of its registered office and its principal place of business are Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands and 43rd Floor, The Center, 99 Queen’s Road Central, Hong Kong, respectively.

The Company acts as an investment holding company. The Company and its subsidiaries (together, the “Group”) principally provides investment management services to investment funds and managed accounts. The Company is listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “Hong Kong Stock Exchange”).

This condensed consolidated interim financial information is presented in thousands of Hong Kong dollars (HK\$’000), unless otherwise stated. This condensed consolidated interim financial information has been approved for issue by the Board of Directors on 19 August 2019.

This condensed consolidated interim financial information has been reviewed, not audited.

2 Basis of preparation

This condensed consolidated interim financial information for the six months ended 30 June 2019 has been prepared in accordance with HKAS 34 “Interim Financial Reporting”. The condensed consolidated interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2018, which have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRS”) issued by the Hong Kong Institute of Certified Public Accountants.

3 Accounting policies

Except as described below, the accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2018. Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual earnings.

3.1 New standard adopted by the Group

The Group has adopted the following new standard which became effective for the Group’s financial year beginning 1 January 2019.

- HKFRS 16 “Leases”

Except for those disclosed below, the adoption of this new standard had no significant impact on the Group’s results and financial position nor any substantial changes in the Group’s accounting policies as at and for the six months ended 30 June 2019.

Notes to the Condensed Consolidated Interim Financial Information

For the six months ended 30 June 2019

3 Accounting policies (continued)

3.1 New standard adopted by the Group (continued)

(a) HKFRS 16 “Leases”

(i) *Impact of adoption*

The Group has adopted HKFRS 16 retrospectively from 1 January 2019, but has not restated comparatives for the 2018 reporting period, as permitted under the specific transitional provisions in the standard. The reclassifications and the adjustments arising from the new leasing rules are therefore recognized in the opening balance sheet on 1 January 2019 and are as follows:

Consolidated balance sheet (extract)	31 December 2018 As originally presented HK\$'000	Adjustments recognised on adoption of HKFRS 16 HK\$'000	1 January 2019 As adjusted HK\$'000
Non-current assets			
Right-of-use assets – properties	–	67,801	67,801
Property, plant and equipment - leasehold improvements	26,543	(2,375)	24,168
Non-current liabilities			
Lease liabilities	–	38,413	38,413
Current liabilities			
Other payables and accrued expenses - accrued lease payments	48,351	(3,050)	45,301
Lease liabilities	–	30,063	30,063

On adoption of HKFRS 16, the Group recognized lease liabilities in relation to leases which had previously been classified as ‘operating leases’ under the principles of HKAS 17 Leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee’s incremental borrowing rate as of 1 January 2019. The weighted average lessee’s incremental borrowing rate applied to the lease liabilities on 1 January 2019 was 4.62%.

	HK\$'000
Audited	
Operating lease commitments disclosed as at 31 December 2018	73,771
Unaudited	
Discounted using incremental borrowing rate as at 1 January 2019	69,750
Less: short-term leases recognized on a straight-line basis as expense	(1,274)
Lease liabilities recognized as at 1 January 2019	68,476
Of which are:	
Current lease liabilities	30,063
Non-current lease liabilities	38,413
	68,476

The associated right-of-use assets for property leases were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the balance sheet as at 31 December 2018. There were no onerous lease contracts that would have required an adjustment to the right-of-use assets at the date of initial application. The recognized right-of-use assets relate to properties is HK\$55,471,000 as at 30 June 2019 (1 January 2019: HK\$67,801,000).

3 Accounting policies (continued)

3.1 New standard adopted by the Group (continued)

(a) HKFRS 16 “Leases” (continued)

(i) Impact of adoption (continued)

There is no net impact on retained earnings on 1 January 2019.

We have summarized the rental and relevant expenses as follows:

	Six months ended 30 June	
	2019 HK\$'000 Unaudited	2018 HK\$'000 Unaudited
Operating lease rentals	4,616	18,560
Depreciation of right-of-use assets – properties	14,742	–
Finance costs	1,448	–
Total rental and relevant expenses	20,806	18,560

(ii) Practical expedients applied

In applying HKFRS 16 for the first time, the Group has used the following practical expedients permitted by the standard:

- the use of a single discount rate to a portfolio of leases with reasonably similar characteristics
- the accounting for operating leases with a remaining lease term of less than 12 months as at 1 January 2019 as short-term leases, and
- the exclusion of initial direct costs for the measurement of the right-of-use asset at the date of initial application.

The Group has also elected not to reassess whether a contract is, or contains a lease at the date of initial application. Instead, for contracts entered into before the transition date the Group relied on its assessment made applying HKAS 17.

(iii) Accounting policies applied from 1 January 2019

The Group leases various offices, carpark and equipment. Rental contracts are typically made for fixed periods of 1 to 3 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants, but leased assets may not be used as security for borrowing purposes.

Until the 2018 financial year, leases of property, plant and equipment were classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) were charged to profit or loss on a straight-line basis over the period of the lease.

3 Accounting policies (continued)

3.1 New standard adopted by the Group (continued)

(a) HKFRS 16 “Leases” (continued)

(iii) Accounting policies applied from 1 January 2019 (continued)

From 1 January 2019, leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable, and
- variable lease payment that are based on an index or a rate.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

Payments associated with short-term leases and leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise small items of office equipment.

3.2 New standards issued but are not effective for the financial year beginning 1 January 2019 and have not been early adopted

There are no HKFRS or HK(IFRIC) Interpretations that are not yet effective that would be expected to have a material impact on the Group.

4 Fair value estimation

The following table presents the Group's financial instruments that are measured at fair value at the end of the reporting period by level of the fair value measurement hierarchy.

The fair value of financial instruments traded in active markets is based on quoted market prices at the end of the reporting period. The quoted market price used for the financial assets held by the Group is the current last traded price. These instruments are included in level 1.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques, which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Specific valuation techniques used to value financial instruments include:

- The use of quoted market prices or dealer quotes for similar instruments.
- Quoted bid prices (or net asset value) provided by fund administrators for unlisted investment funds. These investment funds invest substantially in listed equities.
- Other techniques, such as recent arm's length transactions, discounted cash flow analysis or reference to other instruments that are substantially the same, for the remaining financial instruments.

As at 30 June 2019 and 31 December 2018, the level 3 instruments include a suspended listed security, two investment funds, and a loan note with a related call option (Note 16).

As at 30 June 2019 and 31 December 2018, the investment funds were stated with reference to the net asset value provided by the respective administrator of the investment funds.

As at 30 June 2019, the suspended listed security was marked to zero as a result of illiquidity adjustment. As at 31 December 2018, the suspended listed security was valued with reference to its last transacted price, subject to further illiquidity adjustment. The Group considers that the change in the input to the valuation model would not have a significant effect on the condensed consolidated interim financial information. No quantitative analysis has been presented.

For the investment fund and derivative financial instrument that are classified in level 3 investments, no significant quantitative unobservable inputs are used to determine their fair value. No quantitative analysis would have been presented.

As at 30 June 2019 and 31 December 2018, the loan note with a related call option was valued using discounted cash flow analysis with expected market yield of 5.25% (the discount rate) (2018: 5.25%) as the unobservable input. Sensitivity analysis is not presented as a reasonable possible shift in the discount rate would not result in significant change in the fair value of the loan note with a related call option. No significant quantitative unobservable inputs are used to determine their fair value and no quantitative analysis would be presented.

4 Fair value estimation (continued)

The Group uses its judgement to select appropriate methods and make assumptions based on market conditions existing at the end of each reporting period.

There were no transfers between levels of the fair value measurement hierarchy for the period ended 30 June 2019 (2018: Nil).

The maturities of fees receivable, amounts receivable on sale of investments, other receivables, deposits with brokers, time deposits, cash and cash equivalents and financial liabilities are within one year, and the carrying value approximates their respective fair values.

The carrying amount of borrowing recorded at amortized cost in the condensed consolidated interim financial information approximate its fair value.

5 Segment information

The Board of Directors reviews the Group's internal financial reporting and other information and also obtains other relevant external information in order to assess performance and allocate resources and operating segments are identified with reference to these.

The Group determines its operating segments based on the information reviewed by the Board of Directors, which is used to make strategic decisions. The Board of Directors considers the business from a product perspective.

The Group has one reportable segment – asset management business as at 30 June 2019 and 31 December 2018. The asset management business derives revenues from the provision of investment management services to investment funds and managed accounts.

The Board of Directors assesses the performance of the operating segment based on the measure of profit before tax.

The revenue, profit/(loss) before tax, total assets and total liabilities reported to the Board of Directors is measured in a manner consistent with that in the condensed consolidated interim financial information.

Interests in structured entities

The Group provided seed capital to set up a number of investment funds, of which the Group acts as the investment manager or investment advisor. As at 30 June 2019 and 31 December 2018, except for the consolidated investment fund disclosed in Note 17, the Group determined that all of the other investment funds are unconsolidated structured entities. Refer to Note 24.3 for further details.

The maximum exposure to loss for all interests in unconsolidated structured entities is the carrying value of the investments in investment funds (refer to Note 24.3) and fees receivable as shown in the condensed consolidated balance sheet. The size of the investment funds ranges from US\$3.1 million to US\$7 billion (31 December 2018: US\$3.1 million to US\$5 billion). During the period, other than seed capital, the Group did not provide other financial support to unconsolidated structured entities and had no intention of providing other support.

18 Fees receivable

The carrying amounts of fees receivable approximate their respective fair values due to the short-term maturity. The maximum exposure to credit risk at the reporting date is the carrying amounts of the fees receivable. The Group did not hold any collateral as security as at 30 June 2019 (31 December 2018: Nil).

Fees receivable from investment management activities are mainly due at the end of the relevant valuation period of the investment funds and managed accounts. However, some of these fees receivable are only due after the relevant valuation period as a result of credit periods granted to certain investment funds and managed accounts which are generally within one month. The ageing analysis of fees receivable that were past due but not impaired is as follows:

	30 June 2019 HK\$'000 Unaudited	31 December 2018 HK\$'000 Audited
Fees receivable that were past due but not impaired		
1 – 30 days	739	577

	898	2,974
Fees receivable that were within credit period	140,299	126,019
Total fees receivable	141,197	128,993

Fees receivable from investment management activities are generally deducted from the net asset value of the investment funds and managed accounts and paid directly by the administrator or custodian of the investment funds and managed accounts at the end of the relevant valuation period or credit period, as appropriate.

There was no impairment provision on fees receivable as at 30 June 2019 (31 December 2018: Nil).

Share options

The Group operates a share option scheme for directors, employees and others whom the Board of Directors considers, in its sole discretion, have contributed or will contribute to the Group. The share option scheme is effective for a period of ten years from the date it was adopted, after which no new share options will be granted but the provisions of the scheme will remain in full force and effect in all other respects. The share options are subject to terms as the Board of Directors may determine. Such terms may include the exercise price of the share options, the minimum period for which the share options must be held before they can be exercised in whole or in part, the conditions that must be reached before the share options can be exercised. The Group has no legal or constructive obligation to repurchase or settle the share options in cash. No options (during the year ended 31 December 2018: 27,500,000) were granted under the share option scheme during the six months ended 30 June 2019.

The total expense recognized in the condensed consolidated statement of comprehensive income for share options granted to directors and employees during the six months ended 30 Jun 2019 was HK\$17,543,000 (six months ended 30 June 2018: HK\$11,194,000) which has no impact to the Group's cash flows.

30 May 2022	3.94	500	500
14 April 2025	5.87	27,500	–

The measurement dates of the share options were 15 October 2018, 17 June 2015, 12 May 2015, 31 May 2012, being the dates of grant of the share options, and 27 July 2015, being the date of the Group's extraordinary general meeting approving the grant of 54,800,000 share options to Dato' Seri Cheah. Where the grantees have to meet vesting conditions before becoming unconditionally entitled to the share options, the total estimated fair value of the share options is spread over the vesting period, taking into account the probability that the options will vest or lapse. Forfeiture rate is also considered in determining the amount of share option expenses.

22 Distribution fee expenses payable

The carrying amounts of distribution fee expenses payable approximate their fair value due to the short-term maturity. The ageing analysis of distribution fee expenses payable is as follows:

Notes:

- (1) The closing prices of the Shares immediately before the share options granted on 31 May 2012, 12 May 2015, 17 June 2015 and 15 October 2018 were HK\$3.90, HK\$13.68, HK\$13.50 and HK\$5.87 respectively.
- (2) No share option was cancelled during the period under review.
- (3) Out of a total of 56,620,000 share options, the grant of 54,800,000 share options to Dato' Seri CHEAH was approved in the extraordinary general meeting of the Company held on 27 July 2015.
- (4) Dr. AU King Lun retired from the Board as Executive Director and Chief Executive Officer of the Company with effect from 26 July 2019.
- (5) An amount of 300,000 share options were granted to Mr. LEE Siang Chin on 17 June 2015. He resigned as an Independent Non-executive Director with effect from 14 August 2018. The Board, pursuant to the 2007 Share Option Scheme, approved to extend the exercise period of Mr. LEE's share options for two years from the effective date of his resignation.

Save as disclosed above, at no time during the period under review was the Company or its subsidiaries a party to any arrangement that enabled the Directors or any of their spouses or children under the age of 18 to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

All the options forfeited before expiry of the 2007 and 2017 Share Option Schemes will be treated as lapsed options which will not be added back to the number of shares available to be issued under the Scheme.

Share option expenses

According to HKFRS 2, the fair value of share options granted to employees is recognized as an employee cost with a corresponding increase in a capital reserve within equity. The fair value is measured at grant date using Black-Scholes option pricing model, taking into account the terms and conditions upon which the options were granted. In addition, employee forfeiture rate is also considered in determining the amount of share option expenses.

Where the employees have to meet vesting conditions before becoming unconditionally entitled to the share options, the total estimated fair value of the share options is spread over the vesting period, taking into account the probability that the options will vest or lapse.

Since the Black-Scholes option pricing model requires input of highly subjective assumptions, any change in the subjective input assumptions may materially affect the estimation of the fair value of an option.

Substantial shareholders' interests

As at 30 June 2019, the following persons (other than a Director or chief executive of the Company) had an interest or short position in the shares or underlying shares of the Company which would fall to be disclosed to the Company under the provisions of Divisions 2 and 3 of Part XV of the SFO, or who are, directly or indirectly to be interested in 10% or more of the nominal value of any class of share capital carrying rights to vote in all circumstances at general meetings of any other member of the Group:

Notes:

- (1) Ms. TO Hau Yin is the spouse of Dato' Seri CHEAH Cheng Hye.
- (2) Mrs. YEH Mira is the spouse of Mr. YEH V-Nee.
- (3) Cheah Capital Management Limited ("CCML") is wholly-owned by Cheah Company Limited ("CCL") which in turn is wholly-owned by BNP Paribas Jersey Nominee Company Limited, a company incorporated in Jersey, Channel Islands, holding the shares in CCL as nominee for BNP Paribas Jersey Trust Corporation Limited as trustee for a discretionary trust, the discretionary objects of which include Dato' Seri CHEAH Cheng Hye and certain members of his family. For the purposes of the SFO, Dato' Seri CHEAH Cheng Hye is the founder of this trust. The ultimate holding company of BNP Paribas Jersey Trust Corporation Limited is BNP Paribas SA.

Save as aforesaid and as disclosed in the "Directors' interests in shares, Underlying shares and debentures" and "Substantial shareholders' interests" sections of this report, the Company has not been notified by any person who had interest or short position in the shares or underlying shares of the Company as at 30 June 2019 which were required to be notified to the Company pursuant to Part XV of the SFO or which are recorded in the register required to be kept by the Company under the SFO.

Dividends

The Board does not recommend the payment of an interim dividend for the six months ended 30 June 2019 (six months ended 30 June 2018: Nil).

Foreign exchange

Except for its Renminbi-denominated bank deposits, which has a balance of around HK\$154.1 million as at 30 June 2019 (30 June 2018: HK\$154.0 million), the Group has no significant foreign currency exposure because the majority of receipts and payments as well as assets and liabilities are denominated in the Hong Kong dollar (the Company's functional and presentation currency) and the United States dollar, which is linked to the Hong Kong dollar.

Human resources

As at 30 June 2019, the Group employed 181 staff (30 June: 184) in Hong Kong SAR, 23 staff (30 June 2018: 20) in Shanghai, 7 staff (30 June 2018: 5) in Shenzhen, 5 staff (30 June 2018: 11) in Singapore, 3 staff (30 June 2018: 2) in London and 6 staff (30 June 2018: nil) in Malaysia. Remuneration packages that take into account of business performance, market practices and competitive market conditions are offered to employees in compensation for their contributions. In line with the Group's emphasis on recognition for performance and human capital retention, the Group rewards its employees with year-end discretionary bonus which is linked to the Group's level of profits for that financial year.

Purchase, sale or redemption of the Company's securities

Neither the Company nor any of its subsidiaries have purchased, sold or redeemed any of the Company's listed securities during the six months ended 30 June 2019.

Audit committee

In compliance with the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules"), the Company has an audit committee which comprises three Independent Non-executive Directors. The Audit Committee has reviewed the accounting principles and practices adopted by the Group and discussed auditing, internal controls and financial reporting matters including a review of the unaudited interim results of the Group for the six months ended 30 June 2019.

Independent review of interim results

The unaudited interim results of the Group for the six months ended 30 June 2019 have been reviewed by the Company's external Auditor in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity".

Corporate governance

The Company is committed to maintaining high standards of corporate governance. As corporate governance requirements change from time to time, the Board periodically reviews its corporate governance practices to meet the rising expectations of shareholders and to comply with increasingly stringent regulatory requirements. In the opinion of the Directors, the Company applied the principles and complied with the relevant code provisions in the Corporate Governance Code as set out in Appendix 14 of the Listing Rules throughout the six months ended 30 June 2019.

Model Code for securities transactions by Directors

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (“Model Code”) as contained in Appendix 10 to the Listing Rules as its own code of conduct regarding Directors’ securities transactions.

The Company has made specific enquiry with all Directors and all of them confirmed that they have complied with the required standard set out in the Model Code for the six months ended 30 June 2019.

Publication of interim results and interim report on the Stock Exchange

The interim results announcement is published on the websites of the Stock Exchange (www.hkexnews.hk) and the Company (www.valuepartners-group.com). The interim report will be despatched to the shareholders and will be available on the websites of the Stock Exchange and the Company in due course.

Disclosure of information of Directors

Pursuant to Rule 13.51B(1) of the Listing Rules, the changes of information of the Directors are as follows:

Dato’ Seri CHEAH Cheng Hye has been re-designated as the Co-Chairman of the Board with effect from 26 April 2019.

Mr. SO Chun Ki Louis was appointed as the Co-Chairman of the Board with effect from 26 April 2019.

Our appreciation

Finally, we would like to express our gratitude to the Shareholders, business partners, distributors and customers for their unfaltering support. We would also like to thank our dedicated staff for their contributions to the success of the Group.
