The Group has committed with endeavour and resources to continually engage with our external stakeholders, which enabled dynamic two-way dialogues and relationship building. Meanwhile, as the pandemic still rages in part of the globe, we maintain our mindful watch over any risks of the next wave of contagion.

Performance and expanding product offering

Globally during the first half of 2020, the virus uncertainty and lockdown arrangements have severely hurt investors' confidence. Despite challenges, the Group was able to continue its prime duty as a fund manager by delivering outperformance in the portfolios under management.

Several of our equity funds performed strongly and achieved a positive return during the first six months of the year. Among our funds, the two best-performing funds are a healthcare fund¹ and Chinese Mainland Focus Fund², which respectively returned 20.2%³ and 19.1%² during the period. Other equity products, including the flagship Value Partners Classic Fund, have reached their respective high-water marks.

To enhance our products' visibility and promote our investment capabilities, the Group launched digital campaigns via various channels, including both social and traditional media. In June 2020, the Group experienced success in promoting Chinese Mainland Focus Fund and Value Gold ETF, which respectively addressed investors' interest by providing them an entry into investing in China's new economy sectors and gold bullion as a portfolio diversifier. The marketing campaigns span from animated videos to social media posts, encompassing a broad advertorial strategy. We gained positive feedback from fund distributors and growing inquiries from potential investors.

In terms of product offering expansion, the Group targets to launch additional strategies by the end of 2020.

Despite the virus hit, the long-term structural story of China remains intact. As a pioneer investor in the Greater China markets since 1993, we are pleased to see a growing population of Southeast Asian investors that acknowledge the opportunity. We are delighted to announce our plan to list a Shariah-compliant ETF¹ tracking China A-shares on the Malaysian bourse. An ETF which will enable investors to play a part in China's growth and future while complying with the Shariah principles.

Furthermore, the COVID-19 aftermath is set to bring about long-term positive impacts on the Mainland's medical system, catalyzing improvements in medical equipment, drug and vaccine logistics system, research and development. In addition to an ageing population, China's healthcare sector enjoys an upside potential that is set to unfold over the next few decades. Meanwhile, our existing China-focused healthcare strategy, established in 2015, is to seek authorization from the Hong Kong regulators which will enable retail distribution in the city.

The importance of holding gold in a portfolio has, well and truly, been demonstrated during these times of rising market uncertainties. To that end, we are constantly reviewing our existing products and aim to enhance the funds' features to meet investors' increasing needs.

Meanwhile, Value Partners Investment Management (Shanghai) Limited has obtained an Investment Advisory Qualification from the Asset Management Association of China. The qualification enables our mainland entity to service the private asset management advisory needs.

Global footprint

Global central banks amassed the rescue plan post-COVID-19. The virtually zero interest rate in some major markets has resulted in a growing dominance of low and negative-yielding products. In Asia, with its pandemic situation better than elsewhere, Asian assets, in particular those from China, continue to offer decent relative investment value. China presents a “first-in, first-out” case and an orderly recovery since April, with some sectors delivering impressive year-on-year growth.

Overseas investors’ interest in Chinese equities and bonds is expanding and the trend is to sustain for at least the coming decade. This is primarily because of the underrepresentation of foreign investors in China’s onshore assets. Now, the size of Chinese markets becomes too big to ignore for foreign investors, who collectively own merely 4% of the assets⁴. Incremental growth in foreign interests have manifested itself in several institutional tenders for China specialists, in which Value Partners has been asked to participate. Ahead, our global arms will continue to build brand awareness for Value Partners across the world.

ESG commitment and implementation

The Group is a proud signatory of the United Nations Principles for Responsible Investment and is committed to actively support and promote responsible investment initiatives. We strictly abide by the environmental, social and corporate governance (“ESG”) disclosure requirements on the Hong Kong Stock Exchange as a listed member, and fully align our ownership responsibilities with the Principles of Responsible Ownership outlined by the Securities and Futures Commission of Hong Kong. Being a pioneer value investor in Asian markets since 1993, we conduct in-depth due diligence meetings with the investees on a regular basis and exercise human judgement based on the value investing discipline. This process enables us to evaluate companies with ESG metrics effectively.

In terms of risk-adjusted return, as ESG factors tend to play out over a long term, the Group recognizes that integrating ESG analysis in the investment process can help identify business models that likely generate sustainable returns and resist competitive pressures, and is consistent with our investment philosophy.

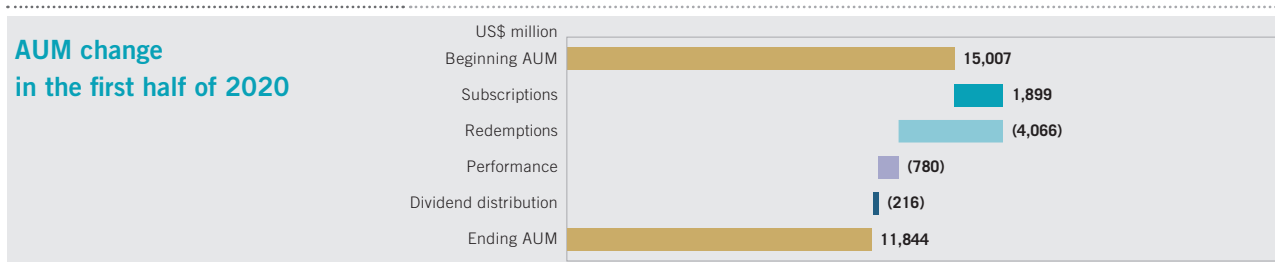

Assets Under Management (“AUM”)

AUM and return

The Group’s AUM stood at US\$11,844 million at the end of June 2020 (31 December 2019: US\$15,007 million). The decline was mainly due to the Group’s net redemptions of US\$2,167 million in the first half of 2020 and the negative fund performance which dragged AUM by US\$780 million.

Overall fund performance¹, calculated as the asset-weighted average return of funds under management, decreased 4.3% in the period under review. Among our funds, the Value Partners Greater China High Yield Income Fund², the Group’s largest public fund³ in Hong Kong, fell 6.8% during the period. The Value Partners Classic Fund⁴, our flagship product, increased 0.2% during the period, while the Value Partners High-Dividend Stocks Fund⁵ declined 11.9% during the period.

In the first half of 2020, gross subscriptions decreased to US\$1,899 million from US\$2,312 million in the second half of 2019 as investment sentiments turned sour. Meanwhile, gross redemptions for the first half of 2020 came down to US\$4,066 million from US\$5,725 million in the second half of 2019. All in all, we had net redemptions of US\$2,167 million (2H 2019: US\$3,413 million).

AUM by category

The charts below show breakdowns of the Group’s AUM as at 30 June 2020 using two classifiers: brand and strategy. Own Branded Funds (80%) remained the biggest contributor to the Group’s AUM by brand amid our expansion in the distribution network. By strategy, Absolute Return Long-biased Funds (58%) continued to represent the largest share of the Group’s AUM, followed by Fixed Income Funds (38%), where the majority of AUM was contributed by the Value Partners Greater China High Yield Income Fund.

Client base

During the period, institutional clients – including institutions, pension funds, high-net-worth individuals (“HNWIs”), endowments and foundations, funds of funds, and family offices and trusts – remained the Group’s primary set of fund investors, accounting for 60% of total AUM (31 December 2019: 59%). Meanwhile, retail clients contributed 40% of total AUM (31 December 2019: 41%). In terms of geographic location, Hong Kong clients continued to be the largest segment, contributing 68% of the Group’s AUM (31 December 2019: 71%). There was a rise in the share of AUM attributable to clients in mainland China, which increased to 12% (31 December 2019: 11%) as the Group’s China and related business saw steady growth in the first half of 2020. The share of AUM contributed by clients in Singapore slightly decreased to 7% (31 December 2019: 8%), while clients from the United States and Europe took up a combined 7% (31 December 2019: 6%).

Summary of results

Key financial highlights for the reporting period are as follows:

(In HK\$ million)	1H 2020	1H 2019	% Change
Total revenue	579.8	815.1	-28.9%
Gross management fees	519.6	679.5	-23.5%
Gross performance fees	15.6	3.4	+358.8%

Basic earnings per share (HK cents)	6.8	13.5	-49.6%
Diluted earnings per share (HK cents)	6.8	13.5	-49.6%
Interim dividend per share	Nil	Nil	

Revenue and fee margin

The Group's profit attributable to owners of the Company decreased to HK\$125.5 million for the six months ended 30 June 2020 (1H 2019: HK\$250.9 million). Gross management fees, the Group's largest revenue contributor, dropped 23.5% to HK\$519.6 million (1H 2019: HK\$679.5 million) on a 26.1% decrease in the Group's average AUM to US\$12,599 million (1H 2019: US\$17,048 million).

During the period, our annualized gross management fee margin increased to 108 basis points (1H 2019: 103 basis points) due to the increase in the AUM portion on own branded funds compared to the first half of 2019, which have relatively higher margins. Our annualized net management fee margin was widened to 61 basis points (1H 2019: 57 basis points), while our management fee rebates for distribution channels decreased to HK\$226.4 million (1H 2019: HK\$312.0 million).

Financial review

Gross performance fees, another source of revenue, increased to HK\$15.6 million (1H 2019: HK\$3.4 million). Performance fees are generated when eligible funds, at their performance fee crystallization dates, report returns exceeding their high watermarks for the respective period up to the crystallization date.

Other revenue mainly included front-end load, of which a substantial amount was rebated to distribution channels (a usual practice in the market).

Other income, which mainly comprised of interest income, dividend income and rental and other income mainly from an investment property, totaled HK\$46.9 million (1H 2019: HK\$49.8 million). The change was mainly due to the drop in interest income to HK\$30.0 million (1H 2019: HK\$32.2 million) and dividend income to HK\$7.2 million (1H 2019: HK\$7.8 million).

Other gains – net

(In HK\$ million)	1H 2020	1H 2019
Net gains on investments	29.8	101.5
Fair value gain of an investment property	–	6.3
Gains on disposal of property, plant and equipment	–	0.5
Net foreign exchange losses	(6.8)	(0.9)
Other gains – net	23.0	107.4

Other gains mainly included fair value changes and realized gains or losses on seed capital investments, investments in our own funds and other investments, as well as net foreign exchange gains or losses. Seed capital investments are made by the Group to provide capital that was considered necessary to new funds during the initial phase of fund launches. The Group also invests in its own funds alongside investors, where appropriate, for better alignment of interests and investment returns.

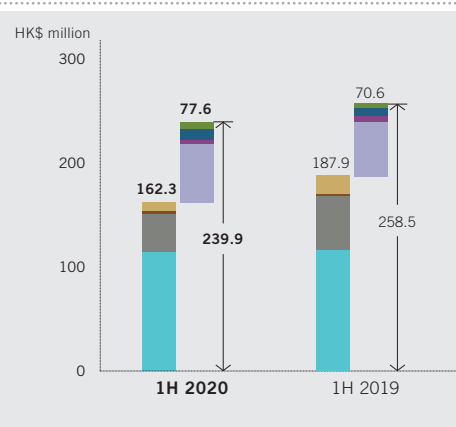

Investment in joint ventures

Investment in joint ventures represents the Group's 50% equity interest in Value Investing Group Company Limited, Clear Miles Hong Kong Limited and VP-ZACD Holdings Pte. Ltd.. Value Investing Group Company Limited has trust beneficiary interests in three Japanese logistics centers, while Clear Miles Hong Kong Limited has 100% indirect interest in an Australian industrial property. The Group's share of gains amounted to HK\$10.1 million (1H 2019: HK\$11.4 million), which was attributable to the rental income for the six months ended 30 June 2020.

Cost management

Breakdown of total expenses

(In HK\$ million)	1H 2020	1H 2019
Compensation and benefit expenses		
Fixed salaries and staff benefits	115.2	117.2
Management bonus	36.1	51.6
Staff rebates	2.7	1.6
Share-based compensation expenses	8.3	17.5
Other expenses		
Other fixed operating costs	56.7	52.6
Sales and marketing	3.9	7.0
Depreciation excluding depreciation of right-of-use assets – properties	10.3	7.3
Non-recurring expenses	6.7	3.7

In terms of cost management, the Group continued to exercise stringent cost discipline and kept fixed operating expenses well covered by net management fee income, which is a relatively stable source of income. Such coverage is measured by the “fixed cost coverage ratio”, an indicator showing the number of times that fixed operating expenses (excluding discretionary and non-recurring expenses) are covered by net management fee income. For the current period, the Group reported a fixed cost coverage ratio of 1.7 times (1H 2019: 2.2 times). With the potential challenges in mind, we are well prepared for the future with ways such as resource realignment and ongoing cost control measures to ensure our ability to navigate the upcoming headwinds and to undergo the strategic development projects in the pipeline.

Compensation and benefit expenses

During the period, fixed salaries and staff benefits slightly decreased by HK\$2.0 million to HK\$115.2 million (1H 2019: HK\$117.2 million).

As part of its compensation policy, the Group distributes 20% to 23% of its annual net profit pool as a management bonus to employees. The management bonus for the first half of 2020 totaled HK\$36.1 million (1H 2019: HK\$51.6 million). The profit pool is calculated by deducting certain adjustments from net profit before the management bonus and taxation. This discretionary bonus is maintained to promote staff loyalty and performance while aligning employee and shareholder interests.

The staff of Value Partners is entitled to partial rebates of management fees and performance fees when investing in funds managed by the Group. Staff rebates for the period amounted to HK\$2.7 million (1H 2019: HK\$1.6 million).

During the period, the Group recorded expenses of HK\$8.3 million (1H 2019: HK\$17.5 million), which were related to stock options granted to employees. This expense item had no impact on cash flows and was recognized in accordance with Hong Kong Financial Reporting Standards.

Other expenses

Other non-staff operating costs – such as rent, legal and professional fees, investment research fees, and other administrative and office expenses – amounted to HK\$56.7 million for the period (1H 2019: HK\$52.6 million), while sales and marketing expenses decreased to HK\$3.9 million (1H 2019: HK\$7.0 million).

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF VALUE PARTNERS GROUP LIMITED

(Incorporated in the Cayman Islands with limited liability)

Introduction

We have reviewed the interim financial information set out on pages 16 to 39, which comprises the interim condensed consolidated balance sheet of Value Partners Group Limited (the “Company”) and its subsidiaries (together, the “Group”) as at 30 June 2020 and the interim condensed consolidated statement of comprehensive income, the interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants. The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”. Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information of the Group is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”.

Notes to the condensed consolidated interim financial information

For the six months ended 30 June 2020

1 General information

Value Partners Group Limited (the “Company”) was incorporated in the Cayman Islands on 10 November 2006 as an exempted company with limited liability under the Companies Law, Cap 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The address of its registered office and its principal place of business are Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands and 43rd Floor, The Center, 99 Queen’s Road Central, Hong Kong, respectively.

The Company acts as an investment holding company. The Company and its subsidiaries (together, the “Group”) principally provides investment management services to investment funds and managed accounts. The Company is listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “Hong Kong Stock Exchange”).

This condensed consolidated interim financial information is presented in thousands of Hong Kong dollars (HK\$’000), unless otherwise stated. This condensed consolidated interim financial information has been approved for issue by the Board of Directors on 13 August 2020.

This condensed consolidated interim financial information has been reviewed, not audited.

2 Basis of preparation

This condensed consolidated interim financial information for the six months ended 30 June 2020 has been prepared in accordance with HKAS 34 “Interim Financial Reporting”. The condensed consolidated interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2019, which have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRS”) issued by the Hong Kong Institute of Certified Public Accountants.

3 Accounting policies

The accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2019. Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual earnings.

Investments and other financial assets

The Group has purchased certain debt instruments during the period and the relevant accounting policy is as follows.

Debt instruments

Subsequent measurement of debt instruments depends on the Group’s business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Group classifies its debt instruments:

- Amortized cost: Assets that are held for collection of contractual cash flows, where those cash flows represent solely payments of principal and interest, are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/(losses) together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of profit or loss.

3 Accounting policies (continued)

Investments and other financial assets (continued)

Debt instruments (continued)

- FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses, which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses), and impairment expenses are presented as separate line item in the statement of profit or loss.

4 Fair value estimation

The following table presents the Group's financial instruments that are measured at fair value at the end of the reporting period by level of the fair value measurement hierarchy.

The fair value of financial instruments traded in active markets is based on quoted market prices at the end of the reporting period. The quoted market price used for the financial assets held by the Group is the current last traded price. These instruments are included in level 1.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques, which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Specific valuation techniques used to value financial instruments include:

- Quoted bid prices (or net asset value) provided by fund administrators for unlisted investment funds. These investment funds invest substantially in private debt investments and private equities.
- Other techniques, such as recent arm's length transactions, discounted cash flow analysis or reference to other instruments that are substantially the same, for the remaining financial instruments.

4 Fair value estimation (continued)

The following table presents the movement in level 3 instruments.

As at 30 June 2020 and 31 December 2019, the level 3 instruments include a suspended listed security, investment funds, and a loan note with a related call option (Note 19).

The Group uses its judgement to select appropriate methods and make assumptions based on market conditions existing at the end of each reporting period.

As at 30 June 2020 and 31 December 2019, the suspended listed security was marked to zero as a result of illiquidity adjustment.

As at 30 June 2020 and 31 December 2019, the investment funds were stated with reference to the net asset value provided by the respective administrator of the investment funds.

During the period ended 30 June 2020, addition of level 3 investment funds amounting HK\$1,164,000 represents a capital contribution of an existing private equity fund. During the year ended 31 December 2019, the addition amounting HK\$196,250,000 represents a private investment fund which primarily invests in private debt equities.

As level 3 investment funds are closed-ended, the Group reviews the valuations of the underlying investments held by respective investment funds to assess the appropriateness of the net asset values as provided by the fund administrators, and may make adjustments as they consider appropriate.

As at 30 June 2020 and 31 December 2019, the loan note with a related call option was valued using discounted cash flow analysis with expected market yield of 5.25% (the discount rate) (2019: 5.5%) as the unobservable input.

On 21 September 2018, the Group acquired the entire interest in a student accommodation investment property located in New Zealand with a consideration of HK\$146,390,000, which was subsequently revalued by the Group as at 30 June 2020 and 31 December 2019.

The Group measures its investment property at fair value, with the help of an independent qualified valuer, Colliers International (Wellington Valuation) Limited. The fair value assessment is derived using the income approach and by making reference to recent transacted price or comparable sales transaction available in the relevant property market. The income approach applies a capitalization rate on market rent for deriving the capital value.

The Group's investment property is related to the investment in Value Partners Asia Pacific Real Estate Limited Partnership (the "Real Estate Partnership"). Refer to Note 19 for further information.

Interests in structured entities

The Group provided seed capital to set up a number of investment funds, of which the Group acts as the investment manager or investment advisor. As at 30 June 2020 and 31 December 2019, except for the consolidated investment fund disclosed in Note 19, the Group determined that all of the other investment funds are unconsolidated structured entities. Refer to Note 25.3 for further details.

The maximum exposure to loss for all interests in unconsolidated structured entities is the carrying value of the investments in investment funds (refer to Note 25.3) and fees receivable as shown in the condensed consolidated balance sheet. The size of the investment funds ranges from US\$0.3 million to US\$4.1 billion (31 December 2019: US\$3.7 million to US\$6.1 billion). During the period, other than seed capital, the Group did not provide other financial support to unconsolidated structured entities and had no intention of providing other support.

18 Investment held-for-sale

The Group classified its interests in an investment fund as held-for-sale as the Group intends to market the fund and dilute its holdings as soon as practicably possible to a level where its aggregate economic interest does not constitute a control. As at 31 December 2019, the major assets of the relevant investment fund were quoted debt securities and the total fair value of the investment held-for-sale was HK\$395,327,000.

20 Fees receivable

The carrying amounts of fees receivable approximate their respective fair values due to the short-term maturity. The maximum exposure to credit risk at the reporting date is the carrying amounts of the fees receivable. The Group did not hold any collateral as security as at 30 June 2020 (31 December 2019: Nil).

Fees receivable from investment management activities are mainly due at the end of the relevant valuation period of the investment funds and managed accounts. However, some of these fees receivable are only due after the relevant valuation period as a result of credit periods granted to certain investment funds and managed accounts which are generally within one month. The ageing analysis of fees receivable that were past due but not impaired is as follows:

	30 June 2020 HK\$'000 Unaudited	31 December 2019 HK\$'000 Audited
Fees receivable that were past due but not impaired		
1 – 30 days	1,467	744
31 – 60 days	–	622
61 – 90 days	–	455
Over 90 days	112	800
	1,579	2,621
Fees receivable that were within credit period	112,249	176,813
Total fees receivable	113,828	179,434

Fees receivable from investment management activities are generally deducted from the net asset value of the investment funds and managed accounts and paid directly by the administrator or custodian of the investment funds and managed accounts at the end of the relevant valuation period or credit period, as appropriate.

There was no impairment provision on fees receivable as at 30 June 2020 (31 December 2019: Nil).

Share options

The Group operates a share option scheme for directors, employees and others whom the Board of Directors considers, in its sole discretion, have contributed or will contribute to the Group. The share option scheme is effective for a period of ten years from the date it was adopted, after which no new share options will be granted but the provisions of the scheme will remain in full force and effect in all other respects. The share options are subject to terms as the Board of Directors may determine. Such terms may include the exercise price of the share options, the minimum period for which the share options must be held before they can be exercised in whole or in part, the conditions that must be reached before the share options can be exercised. The Group has no legal or constructive obligation to repurchase or settle the share options in cash. No options (during the year ended 31 December 2019: Nil) were granted under the share option scheme during the six months ended 30 June 2020.

The total expense recognized in the condensed consolidated statement of comprehensive income for share options granted to directors and employees during the six months ended 30 Jun 2020 was HK\$8,275,000 (six months ended 30 June 2019: HK\$17,543,000) which has no impact to the Group's cash flows.

Movements in the number of share options outstanding and their related exercise prices are as follows:

	Average exercise price (HK\$ per share)	Number of options ('000)

22 Issued equity (continued)

Share options (continued)

Out of the 137,720,000 (31 December 2019: 137,820,000) outstanding share options, 128,553,333 (31 December 2019: 112,190,367) options were exercisable as at 30 June 2020 with weighted average exercise price of HK\$12.80 (2019: HK\$13.33). No options (during the year ended 31 December 2019: Nil) were exercised during the six months ended 30 June 2020.

Share options outstanding have the following expiry date and exercise price:

Expiry date	Exercise price (HK\$ per share)	Number of options ('000)	
		30 June 2020 Unaudited	30 June 2019 Unaudited
11 November 2021	13.60	22,110	24,020
16 December 2021	14.09	87,610	88,050
30 May 2022	3.94	500	500
14 April 2025	5.87	27,500	27,500

The measurement dates of the share options were 15 October 2018, 17 June 2015, 12 May 2015, 31 May 2012, being the dates of grant of the share options, and 27 July 2015, being the date of the Group's extraordinary general meeting approving the grant of 54,800,000 share options to Dato' Seri Cheah. Where the grantees have to meet vesting conditions before becoming unconditionally entitled to the share options, the total estimated fair value of the share options is spread over the vesting period, taking into account the probability that the options will vest or lapse. Forfeiture rate is also considered in determining the amount of share option expenses.

23 Distribution fee expenses payable

The carrying amounts of distribution fee expenses payable approximate their fair value due to the short-term maturity. The ageing analysis of distribution fee expenses payable is as follows:

	30 June 2020 HK\$'000 Unaudited	31 December 2019 HK\$'000 Audited
0 – 30 days	98,730	148,181

Notes:

- (1) The closing prices of the Shares immediately before the share options granted on 31 May 2012, 12 May 2015, 17 June 2015 and 15 October 2018 were HK\$3.90, HK\$13.68, HK\$13.50 and HK\$5.87 respectively.
- (2) No share option was cancelled during the period under review.
- (3) Out of a total of 56,620,000 share options, the grant of 54,800,000 share options to Dato' Seri CHEAH was approved in the extraordinary general meeting of the Company held on 27 July 2015.
- (4) An amount of 300,000 share options were granted to Mr. LEE Siang Chin on 17 June 2015. He resigned as an Independent Non-executive Director with effect from 14 August 2018. The Board, pursuant to the 2007 Share Option Scheme, approved to extend the exercise period of Mr. LEE's share options for two years from the effective date of his resignation.

Save as disclosed above, at no time during the period under review was the Company or its subsidiaries a party to any arrangement that enabled the Directors or any of their spouses or children under the age of 18 to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

All the options forfeited before expiry of the 2007 and 2017 Share Option Schemes will be treated as lapsed options which will not be added back to the number of shares available to be issued under the Scheme.

Other information

Share option expenses

According to HKFRS 2, the fair value of share options granted to employees is recognized as an employee cost with a corresponding increase in a capital reserve within equity. The fair value is measured at grant date using Black-Scholes option pricing model, taking into account the terms and conditions upon which the options were granted. In addition, employee forfeiture rate is also considered in determining the amount of share option expenses.

Where the employees have to meet vesting conditions before becoming unconditionally entitled to the share options, the total estimated fair value of the share options is spread over the vesting period, taking into account the probability that the options will vest or lapse.

Since the Black-Scholes option pricing model requires input of highly subjective assumptions, any change in the subjective input assumptions may materially affect the estimation of the fair value of an option.

Dividends

The Board does not recommend the payment of an interim dividend for the six months ended 30 June 2020 (six months ended 30 June 2019: Nil).

Foreign exchange

Except for its Renminbi-denominated bank deposits, which has a balance of around HK\$153.7 million as at 30 June 2020 (30 June 2019: HK\$154.1 million), the Group has no significant foreign currency exposure because the majority of receipts and payments as well as assets and liabilities are denominated in the Hong Kong dollar (the Company’s functional and presentation currency) and the United States dollar, which is linked to the Hong Kong dollar.

Human resources

As at 30 June 2020, the Group employed 173 staff (30 June 2019: 181) in Hong Kong SAR, 35 staff (30 June 2019: 23) in Shanghai, 6 staff (30 June 2019: 7) in Shenzhen, 4 staff (30 June 2019: 5) in Singapore, 2 staff (30 June 2019: 3) in London and 6 staff (30 June 2019: 6) in Malaysia. Remuneration packages that take into account of business performance, market practices and competitive market conditions are offered to employees in compensation for their contributions. In line with the Group’s emphasis on recognition for performance and human capital retention, the Group rewards its employees with year-end discretionary bonus which is linked to the Group’s level of profits for that financial year.

Purchase, sale or redemption of the Company’s securities

Neither the Company nor any of its subsidiaries have purchased, sold or redeemed any of the Company’s listed securities during the six months ended 30 June 2020.

Audit committee

In compliance with the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”), the Company has an audit committee which comprises three Independent Non-executive Directors. The Audit Committee has reviewed the accounting principles and practices adopted by the Group and discussed auditing, internal controls and financial reporting matters including a review of the unaudited interim results of the Group for the six months ended 30 June 2020.

Independent review of interim results

The unaudited interim results of the Group for the six months ended 30 June 2020 have been reviewed by the Company’s external Auditor in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”.

Corporate governance

The Company is committed to maintaining high standards of corporate governance. As corporate governance requirements change from time to time, the Board periodically reviews its corporate governance practices to meet the rising expectations of shareholders and to comply with increasingly stringent regulatory requirements. In the opinion of the Directors, the Company applied the principles and complied with the relevant code provisions in the Corporate Governance Code as set out in Appendix 14 of the Listing Rules throughout the six months ended 30 June 2020.

Model Code for securities transactions by Directors

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (“Model Code”) as contained in Appendix 10 to the Listing Rules as its own code of conduct regarding Directors’ securities transactions.

The Company has made specific enquiry with all Directors and all of them confirmed that they have complied with the required standard set out in the Model Code for the six months ended 30 June 2020.

Publication of interim results and interim report on the Stock Exchange

The interim results announcement is published on the websites of the Stock Exchange (www.hkexnews.hk) and the Company (www.valuepartners-group.com). The interim report will be despatched to the shareholders and will be available on the websites of the Stock Exchange and the Company in due course.
